The statement of SIM700A addtion NB-IoT

To Whom It May Concern,

Last year, the North American market had CAT-M1 network, but it didn't NB-iot network, SIM7000A only supports CAT-M1 network, Now there are CAT-M1 and NB-IoT network in North American market. SIM7000A add to support NB-IoT network through optimizing software, SIM7000A support CAT-M1 and NB-IoT network.
