### Fully charge the unit before first use.

#### Charging the unit:

Unhook the rubber cover around the pocket clip to expose the micro-USB outlet on the unit. Insert the micro-USB end of the charging cable into the unit. Connect the standard USB end to a power source. The LED will glow blue as the unit charges and turn off when charging is complete. For optimum battery life always turn off the unit power when not in use.

#### Pairing the unit:

Insert a pair of earbuds with a 3.5mm plug in to the unit and put them in your ears. Press and hold the power button  till you hear the power prompt. The blue LED will flash to indicate it is searching for a device. Open the Bluetooth menu on your mobile device. Select the earbuds labeled GC-01 to pair. Once connection is established you will hear a tone indicating a successful pairing and the blue LED will blink slowly.

#### Power off:

Press and hold the power button  till you hear the power off prompt. For optimum battery life always turn off the unit power when not in use.

#### Playing music:

Pause: Press  button quickly. Press again to resume.  
Increase volume: Press + button repeatedly.  
Decrease volume: Press – button repeatedly.  
Next track: Press and hold + button  
Previous track: Press and hold – button

#### Phone functions:

Answer a call: Press  button quickly.  
There is a microphone in the unit. Press again to end call.  
Reject a call: Press and hold  button.  
Redial: Press  button twice to redial last number dialed.

### FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help.
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

#### FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
