IT230**Bluetooth Earbuds****Product Specifications:**

Battery: Rechargeable lithium polymer battery 35 mAh

Input Voltage: 5V

Work Current: 20mA

Impedance: 8Ω

Sensitivity: 100±3dB

Frequency response: 20-20000hz

Transmission range: 30 feet (approx. 10m)

Bluetooth Version: 4.2

Bluetooth Profiles: HSP, HFP, ADP, AVRCP

Voice prompt: Support

Music playing time: approx. 2 hours

Talk time: approx. 1 hour

Charging time: minimum 1 hour

**Fully charge the unit before first use.****Charging the earbuds:**

Remove the rubber cover around each earbud to expose the micro-USB outlet on the unit. Insert the micro-USB end of the charging cable into each earbud. Connect the standard USB end to a power source. The LED will glow red as the earbuds charge and turn off when charging is complete. Replace the rubber covers when charging is complete. For optimum battery life, always turn off the unit power when not in use.

Pairing the earbuds:

Insert the earbuds in your ears. Each earbud is specifically contoured for your left and right ear. Press and hold the button of one of the earbuds for 3 seconds (left channel); release when the red light and blue light flash alternately. The Bluetooth® earphone enters pairing state. Open the Bluetooth® of your mobile phone and search. Click the model "GC-30" to pair. Press and hold the key of the other earbud for 3 seconds (right channel). Release when the red light and blue light flash alternately. It will then be paired and connected with left channel automatically. For best function, keep the headphone within 1.5 feet of the mobile device.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

--Reorient or relocate the receiving antenna.

--Increase the separation between the equipment and receiver.

--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

--Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
