

IN THE BOX

Petcube Bites Model:PB913NVT

INSTALLATION

Consider placing Petcube Bites in a location that allows for maximum coverage through the camera's 138° wide angle lens. It's always a good idea to point Petcube Bites in the direction where your pet tends to spend most of their time.

If you want to place Petcube Bites on a table or shelf, we recommend you set it up at least 3 feet above the floor. Petcube Bites has a non-slip rubber bottom, which provides a secure grip on flat surfaces. The camera should be placed closer to the edge of the surface for better viewing angle.

If you decide to mount Petcube Bites securely on the wall, select your preferred viewing height. Then, use the included mounting guide to mark where to drill holes (0.3 inch diameter for the included dowels) and two anchor screws to affix the device.

TREAT RECOMMENDATIONS

Treats should be uniform in size, no smaller than 0.3 inches and no larger than 1 inch in length. The treat hopper can fit up to 100 treats.

- Treats must be dry and hard.
- Treats should not be greasy, soft, sticky or crumbly.
- Use treats that are all the same size and shape.
- For smaller size treats, multiple treats may be dispensed at once.

Petcube Bites is integrated with Amazon Dash Replenishment Service (DRS) to allow for automatic treat refillment from Amazon when supplies run low. Control this option through the Petcube App and enjoy convenient reordering and shipment of your treats from Amazon.

MAINTENANCE

Detachable Treat Container

Detach the treat container by pushing the back release button to the right and pulling up and away from the base.

Cleaning Made Simple

The detachable treat container is dishwasher safe on lower temperature/delicate cleaning settings (up to 130°F), or you can wash it by hand. Do not use abrasive cleaners on the container, only liquid detergents and soft sponges.

Troubleshooting Tips

If a treat gets jammed in the container, you'll get a notification via the Petcube App. You can dislodge the treat by removing it or shaking the container to empty it. If a treat gets stuck in the flinging mechanism, use the door on the bottom of the device to remove it. Do not unjam the device with sharp instruments or apply too much pressure, both of which can damage the device.

Close Container Lid

Securely close the lid for an airtight seal to keep treats fresh and so no odors get out.

Petcube Bites™

START GUIDE

Designed For Pet Parents

## CONNECTION

1

### Get Started

Install the Petcube App on a smartphone (iOS 8 / Android 4 or higher) and register your account.

Need assistance? Contact us at [www.petcube.com/support](http://www.petcube.com/support)

2

### Power & Wi-Fi Connect

Plug in Petcube Bites and connect it to your home Wi-Fi.

3

### Complete Setup

Connect to your Petcube Bites and start treating.

## LOOK FOR THE LED LIGHT NOTIFICATION

## DO'S & DONT'S

Watch your pet, talk to them remotely, record videos and get notifications about your pet's activity.

Share access to your Petcube Bites with friends, family or anyone within the Petcube community.

Fling treats to your pet on demand or on a schedule. Use it as a training aid and to reinforce good behavior.

- ✗ Don't drop, hit, or shake your Petcube Bites.
- ✗ Don't stain, scratch, or otherwise damage the front glass.
- ✗ Treats dispensed by Petcube Bites should not replace your pet's normal meals.
- ✗ Petcube Bites should not be used to dispense medication to your pet.
- ✗ Please keep in mind treat expiration dates and ensure you are only providing your pets with fresh treats.
- ✗ To prevent mechanical problems, use only compatible treats.
- ✗ Be aware that using treats with your pet exposes them to choking hazards. Ensure your pet is familiar with the treats you are using and, that you monitor their consumption. You are not required to use any specific treats with Petcube Bites.
- ✗ Petcube Bites should not be used by minors without supervision from an adult.
- ✗ Don't expose to liquid, moisture, dust, excessive heat, or open flames.
- ✗ Protect the power cord from being walked on, pinched, or chewed on by pets.
- ✗ To avoid overheating, don't leave Petcube Bites in direct sunlight.

## PRODUCT INFO

### Petcube user guide

The explanations provided in this guide are for informational purposes only and may be modified. The latest version of this guide can be found at [www.petcube.com/user-guide/bites](http://www.petcube.com/user-guide/bites).

### Software

Your Petcube Bites connects to Petcube, Inc. copyrighted software to control its operation.

### One year limited warranty

#### Caution:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

#### RF Exposure

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This device should be installed and operated with minimum distance 20cm between the radiator & your body.
