12. FAQ

Q: I don't read a foreign language, how can I change it back to English?

- Find setting icon and access ***Settings***.
- Choose icon to enter ***Language & input*** setting, the first option is language setting.

Q: How can I set the screen auto shut off time?

- Access ***Setting*** – ***Display*** – ***Sleep***, and set default input.

Q: How to set screen lock?

- Access *Setting – Security – Screen lock*, there are several different ways to set screen lock.

Tips: Please do remember your screen lock Pattern or Pass word after setting, if you forget the pass word, you have to rebuild system of the Tablet (to reload Firmware/ROM Pack), you will lose all your applications or data in the Tablet PC. Please backup data regularly.

Q: I cannot install some applications, why?

- Please make sure *Security – Unknown source* is *ON*.
- Some applications are not compatible with the device, please choose proper edition of applications.

13. About Firmware

Firmware (*ROM Package*) contained in the Tablet PC provides the control program for the device, and it is offered by the original manufacturer.

Reloading firmware is to rebuild system into the Tablet PC, and it is the final solution to serious system problems. After reloading firmware, all user's data will be cleaned. For common breakdown, users can just restart the Tablet PC, or run *factory reset.* If system crashes appear continuously even users have run factory reset, they can reload firmware under professional guidance.

The firmware preloaded in the Tablet PC is a stable version for the device, please do not reload firmware unless it is absolutely necessary. We DO NOT suggest users reloading firmware without professional guidance, and we shall be not responsible for Tablet PC's breakdown caused by users' improper operation.

For further information of firmware, please contact with the manufacturer of the device.

FCC Caution.

§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between theequipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

***RF warning for Mobile device:**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This product is used in embedded fixed terminal equipment and is not sold as a stand-alone product
The final terminal equipment this tablet will be used in is a resistance welder.
There should be no conditions or cautions thatshould come up when the tablet is installed in the final unit.
The tablet is enclosed and protected.
