

## FCC Label Placement

Pursuant to FCC Part 2.925 paragraph (f)

The FCC Identifier including the term “FCC ID” shall be in a size of type large enough to be readily legible, consistent with the dimensions of the equipment and its label. However, the type size for the FCC Identifier is not required to be larger than eight-point. If a device is so small that it is impractical to label it with the FCC Identifier in a font that is four-point or larger, and the device does not have a display that can show electronic labeling, then the FCC Identifier shall be placed in the user manual and must also either be placed on the device packaging or on a removable label attached to the device.

The FCC Identifier is placed on the packaging and in the User Manual.

**Figure 1** - FCC Identifier on packaging

From page 8 of the User Manual:

**FCC ID: 2AK7R-04337** This FCC ID number is only located in this manual and on the packaging, not on the device itself.
