

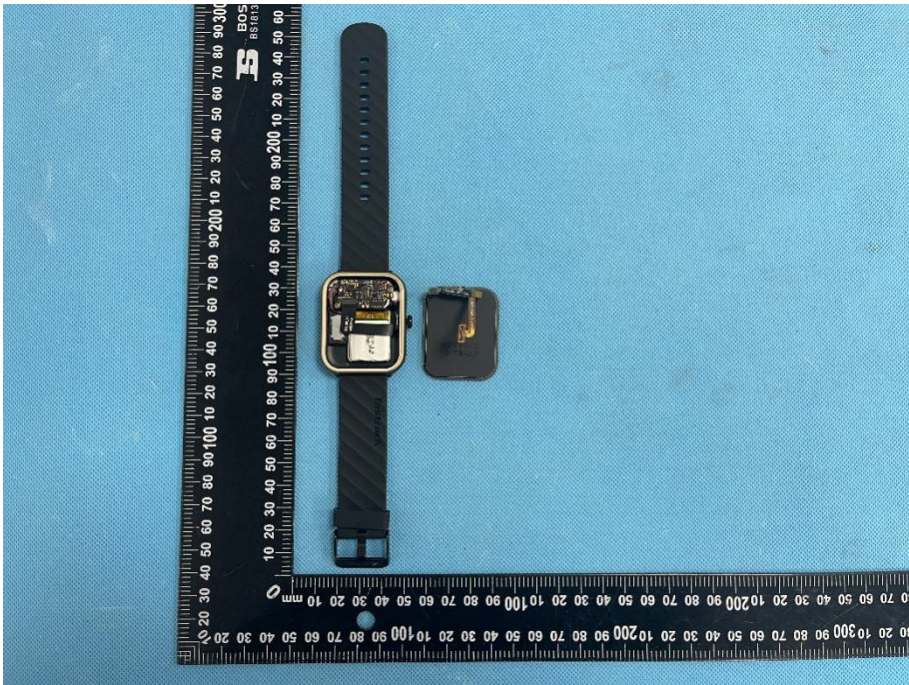

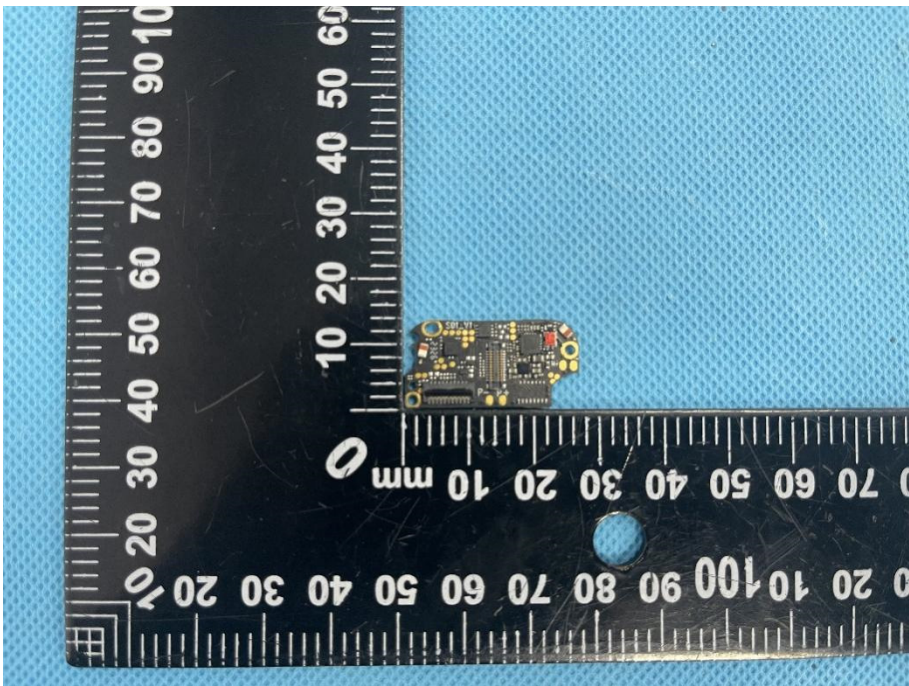

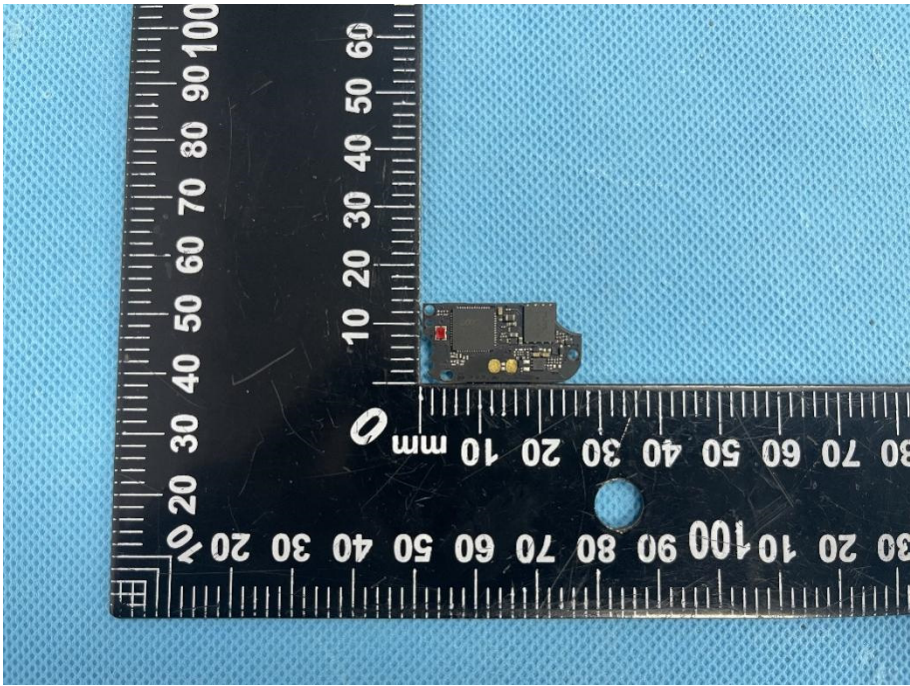

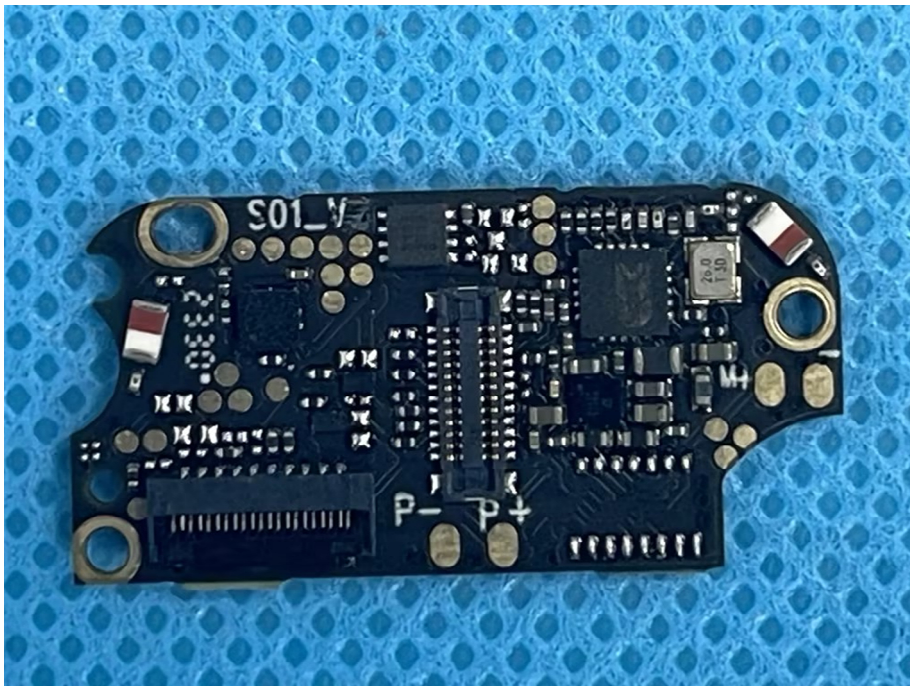

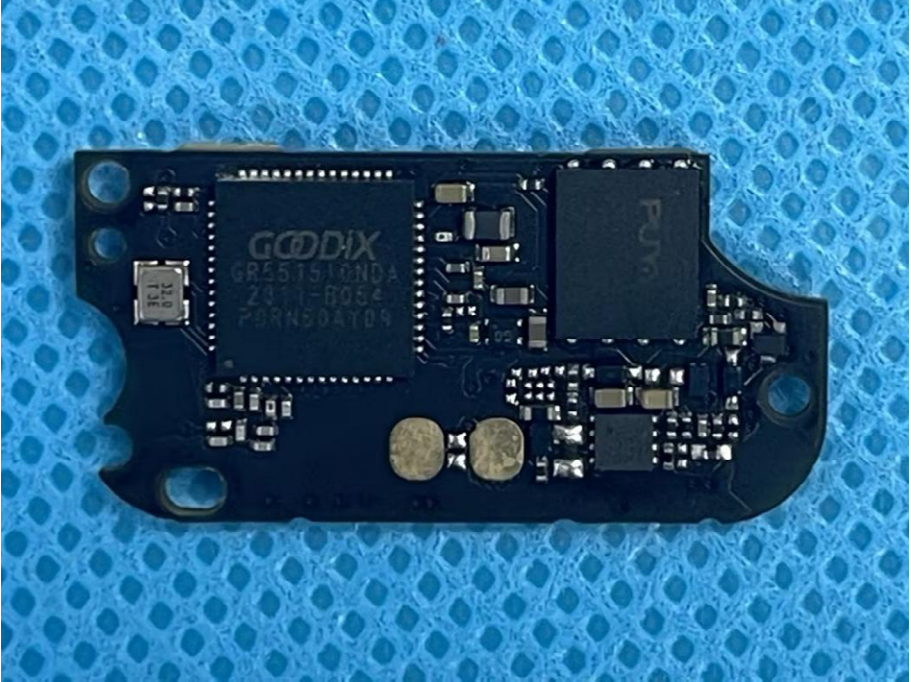

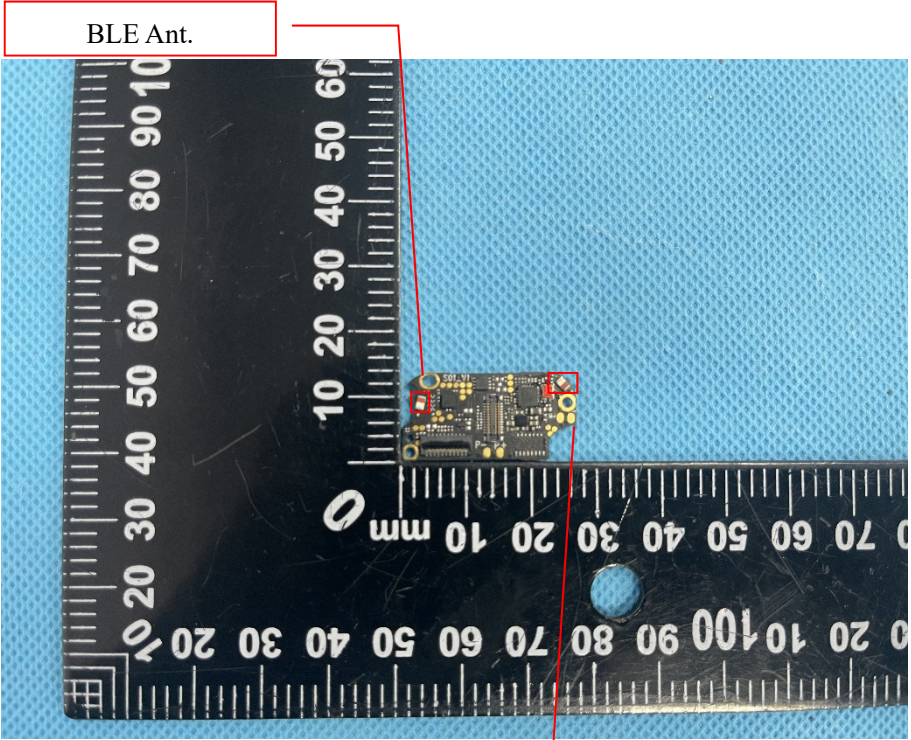

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	 A photograph showing the internal components of an EUT (Electronic Unit) housing. The housing is black and rectangular. The internal board is visible, showing various electronic components. A black strap is attached to the housing. A ruler is placed next to the housing for scale, showing measurements in millimeters. The ruler is marked from 0 to 100 mm.
<p><b>Solder Board-Component View 1</b></p>	 A close-up photograph of a small, rectangular solder board component. The component is populated with various electronic components, including resistors, capacitors, and integrated circuits. A ruler is placed next to the component for scale, showing measurements in millimeters. The ruler is marked from 0 to 100 mm.

<p><b>Solder Board-Component View 2</b></p>	
<p><b>Solder Board-Component View 3</b></p>	

<p><b>Solder Board-Component View 4</b></p>	 <p>A photograph of a black PCB component with various electronic components. A large square chip in the center is labeled 'GOODIX GR5515 LONDA 2311-B05A PORN50AT09'. There are two circular components at the bottom, and a small rectangular component on the left. The component is placed on a blue textured background.</p>
<p><b>Antenna View</b></p>	 <p>A photograph of the antenna component from the previous view, placed on a black ruler for scale. The ruler has markings in millimeters. Two red boxes with labels are connected to the component by red lines. The top box is labeled 'BLE Ant.' and points to a small component on the left side of the antenna. The bottom box is labeled 'EDR Ant.' and points to a small component on the right side of the antenna. The antenna component is small and rectangular with several gold-colored pads.</p>
