

TS-BT100

Specifications

Bluetooth Version: 4.0
 Supported Bluetooth profiles: A2DP v1.2, AVRCP v1.4,
 HFP v1.6, HSP v1.2, DI v1.3

Frequency range: 2.4GHz - 2.4835GHz
 Transmission range: up to 10 m (33')
 Power: lithium-ion polymer battery,
 4.2 V / 700 mAh (rechargeable)

Driver size: 45mm
 USB to micro USB cable
 3.5 mm (1/8") audio cable with microphone

Battery status

Charge time	≤ 5 hours
Talk time	≥ 35 hours
Music playback time	≥ 35 hours
Standby time	≥ 500 hours

LED STATUS

	LED Activity	Function
CHARGE	Flashing Red	Low battery
	Red (when plugged in)	Charging
	Blue (while plugged in)	Fully charged
LED	Quick Blue/Red Flashing	Pairing mode
	Slow Blue Flashing	Connected
	Blue	Connected

Button functions

Button	Function
Power ⏻ / pair 🔗	Long press the button while off(3 seconds)-power on Long press the button while on(3 seconds)-power off

Volume down (-) / Next ▶▶	Press once to go to decrease volume While Calling and playing music Press and hold to next track while playing music

FCC Caution:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
