Product Description

Caps Indicator / 2.4G Mode Indicator / Battery Indicator / BT Mode Indicator

Volume and Brightness Control

Built-in Palm Rest

Battery Compartment
(USB receiver is stored in it)

Instructions

1.Get Started

① Find the battery compartment, and insert the battery.

② Find the ON/OFF switch at the bottom of the keyboard, and slide the switch to the ON position to turn on the keyboard.

③ Find the mode button and select the connection channels among 2.4G/BT1/BT2. When the mode is activated, the relative mode indicator will light up and keep flashing.

---

❹ Connect via USB Receiver

Turn on the keyboard, select 2.4G mode. Insert the USB receiver into the USB port of your computer, plug and play.

❺ Connection via BT

BT

There are two BT channels, BT1 and BT2, and select one of them.
Open the BT settings of your device, and find "Bluetooth 5.0 KB1" to pair and connect.

2.Connection Exception

If you experience issues with connection, please follow the below guidance.
- Make sure the keyboard with enough power.
- For the issue of failing to build up the connection by the USB receiver or BT (the situation of the mode indicator LED keeping blinking will be seen).

❻ How to rebuild the connection by USB receiver

Press at the same time for 3s

- Slide the ON/OFF switch to the OFF position.
- Remove the USB receiver from the computer.
- Power on the keyboard again.
- Insert the USB receiver into the computer.
- Press "ESC" key and "=" key at the same time for about 3 seconds, then the 2.4G mode indicator will keep flashing quickly.
- If the connection was built up, the indicator LED will automatically turn off.

---

❼ How to rebuild the BT connection

BT mode indicator light up / Press for 3s

- Restart the keyboard.
- Select BT1 or BT2 channel.
- Press the BT mode button "BT1 or BT2" for about 3 seconds.
- The mode indicator will keep flashing quickly.
- Open the BT settings, and find "Bluetooth 5.0 KB1" to pair and connect.
- If the connection was built up, the indicator LED will automatically turn off.

- If not successful, please try again.
- Or try to test the connection on other devices.
- If need more suggestions and help, please contact us.
