

95x125mm

QUICK START GUIDE

Combo press “+” and “-” to toggle EQ profiles
Bass boost
Signature
Flat(longest battery life)

Memory foam eartips provide the best protection from outside noise

For the best fit, select the eartip size that feels secure and reaches into the ear canal. Sound quality will be poor if the eartip doesn't seal well or sits outside the ear canal.

Republic Audio is rooted in Faith, Family, and Freedom. At our core, we are dedicated to our veterans and upholding these principles with our actions. Check out our website for more info on the organizations we support.

We take no shortcuts in developing our products. Every product we make has great battery life, engineered to handle a beating, fits great, and has amazing sound!

No Strings Attached Warranty

Damaged your earbuds while using them? Just send them back to us and we will send you a replacement for free

Eartip Replacements

Lost the eartip that fits the best? We will send you replacement tips free of charge

RF exposure statement

This equipment complies with the FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
