

Model: ZHWG11LM

Aqara Hub
User Manual and Warranty

Product description

Aqara Hub is the control center of the smart home devices, it connects all the smart sensors and controllers through Aqara APP to create and manage a variety of intelligent life scenes. Aqara Hub functions as night lights, illumination detection, sound and light alarm, ect.

Quick Setup

1. Download Aqara APP

Download Aqara APP in the application store or scan the following QR code.

More smart devices info, please visit aqara.com

2. Connect new devices

Plug in the hub, make sure it connects to 2.4GHz Wi-Fi

Open Aqara APP, go to “Device List”, click “+” on the top right to add devices, choose Aqara hub and follow the instructions.

* Please keep your phone close to the hub for connectivity convenience, and make sure your phone and hub connect to the same Wi-Fi.

If connection failed, press the button on the hub for 5 seconds until a yellow light blinks to reconnect the hub.

Follow the instruction in the user manual to add devices after the hub is ready. You can view the device list under the hub and set up the automation scenes.

Installation

The hub must be placed close to the router, 2 to 6 meters for ideal transmission.

Indicator Light Description

Indicator light color	Indicator light status	
	Quick blink	Slow blink
Yellow light	Reset to factory settings, it appears in the initial usage or resetting	Firmware upgrade
Blue light	Wi-Fi is connecting, it appears when the APP is connecting the hub, network is disconnected or the network is reconnected after the plug is re-plugged	N/A

Specifications

Model : ZHWG11LM

Size: 80×80×41.5mm

Operating temperature: 0 °C- +40 °C

Operating humidity: 5% - 95%RH, no condensation

Input voltage: 100 - 240V~, 50Hz/60Hz

Wireless connections: Wi- Fi IEEE 802.11 b/g/n 2.4GHz, ZigBee, NFC

Applicable system: Android 4.4 or above, iOS 8.0 or above

* This equipment is for indoor use only

* This equipment is only suitable for safe use in areas below 2,000 meters above sea level

Federal Communications Commission (FCC) compliance statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

IC NOTICE TO CANADIAN USERS

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device. This device complies with RSS-247 of Industry Canada. Operation is subject to the condition that this device does not cause harmful interference. This Class B digital apparatus complies with Canadian ICES-003 (Cet appareil numérique de la Classe B conforme à la norme NMB-003 du Canada).

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet équipement est conforme aux limites IC d'exposition aux radiations définies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps. Cet émetteur ne doit pas être situé ou opérant en conjonction avec une autre antenne ou émetteu

Important Safety Instructions

1. CAUTION : Risk of electric shock, This product is not a toy and not intended for use by children. For adult use only
2. The maximum ambient temperature during use of the appliance must not exceed 40°C.
3. The appliance is suitable for moderate climates only.
4. The ventilation must not be impaired by covering the appliance with items such as newspapers, table cloths, curtains, etc.
5. Naked flame sources, such as candles, must not be placed on the appliance.
6. The appliance does not require much attention. If you want to clean it, please use only dry cloths or a brush.
7. Main plug is used as disconnect device and it should remain readily operable during intended use. In order to disconnect the apparatus completely, the main plug should be disconnected from the main socket outlet completely.
