UL-RPT-RP11456397JD18F, UL-RPT-RP11456397JD18G, UL-RPT-RP11456397JD18H,

I confirm that the EUT was oriented in the X plane during radiated spurious emission testing as shown in the Test Set Up Photos exhibit 'UL-RPT-RP11456397JD18 Photos.pdf' as this was found to be the worst case orientation with respect to radiated emissions.

Yours faithfully
