

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

2.4G Mini Wireless Microphone**User Manual**

Voice conveyed to your heart with our value

KM-G100**Product Features**

- 2.4G wireless transmitter and receiver can work automatically, easy to operate
- Up to 6hs using time
- Suitable to different applications
- 6.35MM plug make it used for different devices

Technique Parameters

Frequency Range: 2.4GHz
 Frequency Response: 20Hz-20KHz ± 3dB
 Paired Method: Automatic paired
 Power Supply: Lithium
 Current: 0dBm < 70mA
 Capsule Type: Condenser
 Operation Distance: 15m
 Power Consumption: 6Hours

Standard List

- | | |
|--|---|
| 1. Transmitter | 1 |
| 2. Receiver | 1 |
| 3. Headset Boom | 1 |
| 4. One with Two USB Charge Cable | 1 |
| 5. 6.35MM plug | 1 |
| 6. User Manual | 1 |

Instructions

1. Put the receiver into MIC port of amplifier, speaker and other audio equipment (use the extra plug if the port is 6.35MM)
2. Open the receiver power switch, the power indicator is flashing

3. Open the transmitter power switch, the power indicator is flashing, and the transmitter and receiver match automatically. Once matched well, the power indicator is steady on.

4. Adjust the volume button to the suitable sound

5. Wear the boom and enjoy using

Caution

- The power indicator is red when low power, and it turns off when the power is less than 10%, please charge on time
- Store the wireless microphone in the dry and vented place to avoid from raining, water, and heavy throw
- Non-specialist please do not open it to repair, any problem, please contact the local distributors
- We reserve the right to update the specification and instruction without further notice
