Inquiry on 05/11/2018 :

Inquiry:

Dear OET Officer,

The bluetooth earphone product contains left earphone, right earphone and charge docking. Product photos and Label are as attached.

My question is: Can the FCC ID and statement of Sec.15.19 be placed on the charge docking?

Because two earphones are too small to place these information, and earphones will be placed in charge docking in the packaging, these information can be saw when end user open the charge docking.

FCC response on 05/11/2018

Yes this is acceptable.

Attachment Details:
