

## FCC ID placement

Shenzhen Dongdixin Technology Co., Ltd. here by submits justification for placing the FCC ID on the bottom of the storage box.

This product is composed with the main device and storage box, the main device powered by the rechargeable battery, the main device must put in the storage box to charge. The method of the using way shows as below:

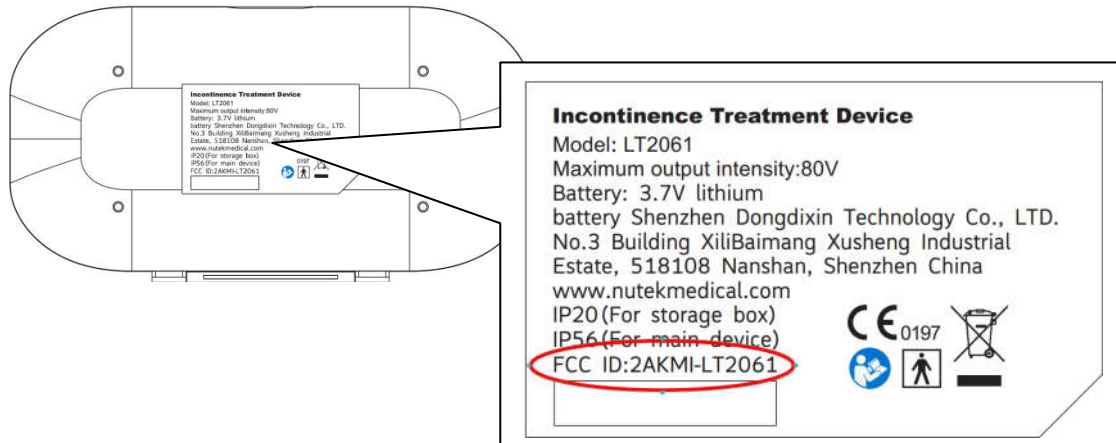

However, our product design with curved surface of the main device, it will caused the silk screen is not clear, so that our customer can't identify FCC ID number clearly. The main device shows as below:

In addition, the storage box of the main device is unique. When the lithium battery runs out, only put the main device in the storage box to charge. If you lost the storage box, you can't charge the main device, and you can't use the main device.

For these reasons, we request to have the FCC ID moved to the label which on the button of the storage box.

**Best regards**
