**Federal Communication Commission Interference Statement**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
 • Reorient or relocate the receiving antenna.  
 • Increase the separation between the equipment and receiver.

• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
 • Consult the dealer or an experienced radio/TV technician for help.

INSTALL LED STRIPS

Peel 3M™ adhesive mounting and press the flexible LED strip into place.

For 6.5-ft LED Strips:  
 Plug the LED strip into the 5V USB controller cable (3.8ft) and then the cable into any USB port (TV or PC) or USB power supply (not included).

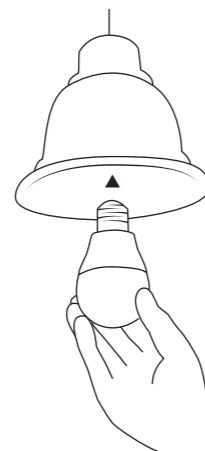

CAUTION: 6.5-foot LED Strips should only be plugged into 5V USB ports.

6.5-foot LED Strips USE ONLY WITH CLASS 2 POWER UNIT

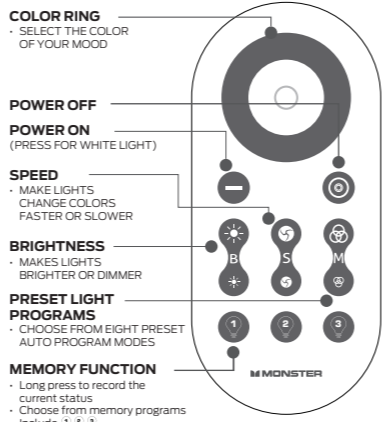

CAUTION: To reduce the risk of fire, do not install closer than 0.5 inches to cabinet wall or in a compartment smaller than 20 inches by 40 inches by 12 inches.

The LED Strip should be installed on smooth surface, e.g. metal, plastic, wood, or glass.

INSTALL LED LIGHT BULBS

USING YOUR REMOTE

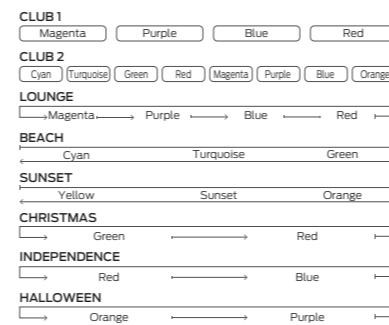

**Battery Warning Statement**  
 Do not mix old and new batteries and Do not mix alkaline, standard (carbon-zinc) or rechargeable (ni-cad, ni-mh, etc.) batteries.  
 AAA BATTERIES REQUIRED (NOT INCLUDED)

**COLOR RING**  
 Choose the color of your lights.

**BRIGHTNESS**  
 Dim from 10% - 100%.

**PRESET LIGHT PROGRAMS**  
 Eight different auto programs for parties, lounging, and special occasions.

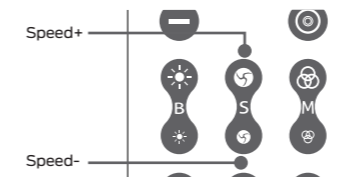

**SPEED**  
 Adjust program speeds faster for parties and slower for an elegant change of atmosphere.

PAIRING

By default, all Monster IlluminEssence LED strips and LED light bulbs will be paired out of the box with the included remote control.

**TO PAIR**  
 To pair LED strips or LED light bulbs to another remote, simply unplug and replug back in the LED strip or lamp to power and WITHIN FIVE SECONDS of plugging back into power, press and hold the "Speed+" until the lights blink three times.

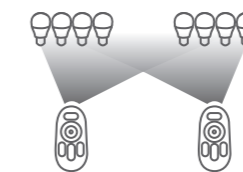

**TO UNPAIR**  
 Repeat above but instead of "Speed+" press "Speed-".

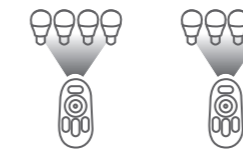

EXPAND

**EXPAND LIGHTS AND ROOMS**  
 You can pair up to four remotes with up to 30 Monster IlluminEssence LED strips or LED light bulbs.

You can have multiple remotes control the same set of lights.

You can also have different sets of lights paired to different remotes to control rooms independently.
