

CAMERA PLACEMENT

Because the camera is completely wire-free, you'll have a lot of flexibility with where you place it.

The camera's flat base allows you to put it on a table, shelf, or anywhere with a flat surface.

The camera also comes with a separate magnetic stand which can be mounted to a wall with either the included 3M Command™ adhesive strips or screws and wall plugs. The stand will hold the camera in place at almost any angle.

If you choose to hang the magnetic stand on the wall, simply follow the instructions on the supplied mounting template which will help you to correctly mark and drill positions for the screw holes.

FCC Statement

This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and the receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC RF Radiation Exposure Statement Caution: To maintain compliance with the FCC's RF exposure guidelines, place the product at least 20cm from nearby persons.

WARNING: Modifications not approved by the party responsible for compliance could void user's authority to operate the equipment.

Frequency Range: 2.4GHz ISM Band; 5.0 GHz ISM Band

CE Output Power: 2412-2472MHz<16dBm;5150-5350MHz<13dBm;5470-5725MHz<13dBm

Wire-Free HD Video Camera

QUICK START GUIDE

CAMERA OVERVIEW

- 1 Night detection sensor
- 2 Microphone
- 3 Infrared LEDs for night vision
- 4 Passive infrared motion sensor
- 5 LED indicator

- 6 Reset pinhole button
- 7 Pairing button
- 8 USB charging port
- 9 Port cover
- 10 Magnetic mount holder

CHARGE THE CAMERA

Before using the camera for the first time, fully charge it using the included USB cable.

- 1 Open the port cover on the back of the camera.
- 2 Plug the smaller end of the USB cable into the USB charging port on the camera, and the larger end into a USB wall charger (DC5V 2.1A power output recommended for faster charging).
- 3 A full charge takes about 6 hours using a recommended DC5V 2.1A USB wall charger.

GET THE APP

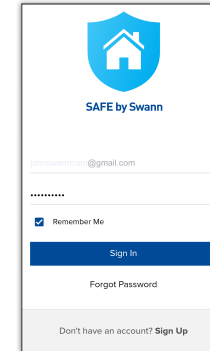

- If you have an Android smartphone, download and install the latest version of the SAFE by Swann app from the Google Play Store.

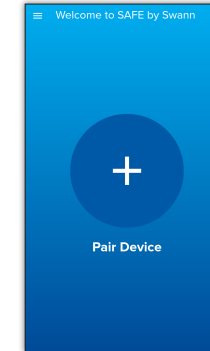

- If you have an Apple iPhone, download and install the latest version of the SAFE by Swann app from the Apple App Store.

FIRST TIME SETUP

Open the SAFE by Swann app. Create an account or sign in if you already have an account.

Tap **Pair Device** and follow the on-screen instructions to set up Wi-Fi and register the camera to your account.
