<input type="checkbox"/> Short Term		User's Manual

Permanent confidentiality:

The above materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of these matters might be harmful to us and provide unjustified benefits to our competitors.

We are also aware that they are responsible to notify AT4 wireless in the event information regarding the product or the product is made available to the public. AT4 wireless will then release the documents listed above for public disclosure pursuant to FCC Public Notice DA 04-1705.

Permanent confidentiality of internal photographs:

The circuit boards of the device are fully encapsulated in epoxy resin. The encapsulant is non-transparent and therefore makes the observation of the circuit boards impossible. The device is designed as irreparable, neither service staff nor users can remove the encapsulant without destroying the device. In the event of technical failure, the device must be replaced with a new one.

Sincerely,
