

## **Circuit Description**

**Iradimed Corporation**

**FCC ID: 2AKRU-IRM02**

**IC: 2232-IRM02**

**Device:** 3882 oPOD (SpO2 POD)

**Circuit Description:** This device mostly transmits wireless vital sign data to the monitor. An OEM daughter board plugs into this board that acquires and processes SpO2 signals ultimately transmits this data over a wireless link to the monitor. The oPOD also seldomly receives data from the monitor when user settings are modified.
