SPECIFICATIONS

- Driver: 1x 1.2" (30mm) Full-Range Driver
- Power: 5W (RMS) / 10W (Peak)
- Frequency Response: 20Hz - 20KHz
- Impedance: 16Ω
- Battery: 1x 18650 Li-ion Battery (3000mAh)
- Charging Time: 4 hours (0-100%)
- Standby Time: 100 hours (0-100%)
- Operating Temperature: 0°C - 40°C
- Storage Temperature: -20°C - 60°C
- Weight: 150g (5.3oz)
- Dimensions: 100mm x 50mm x 30mm (3.9" x 1.9" x 1.1")

CARE AND MAINTENANCE

- 1. Do not use the speaker in wet or damp conditions or near water.
- 2. Do not use the speaker in direct sunlight or near heat sources.
- 3. Do not use the speaker in areas with high humidity or high salt content.
- 4. Do not use the speaker in areas with high dust or dirt content.
- 5. Do not use the speaker in areas with high magnetic field or high electromagnetic interference.
- 6. Do not use the speaker in areas with high radio frequency interference.
- 7. Do not use the speaker in areas with high vibration or high shock.
- 8. Do not use the speaker in areas with high pressure or high vacuum.
- 9. Do not use the speaker in areas with high temperature or high cold.

SAFETY INSTRUCTIONS

- 1. Read the user manual carefully before using the speaker.
- 2. Do not use the speaker in wet or damp conditions or near water.
- 3. Do not use the speaker in direct sunlight or near heat sources.
- 4. Do not use the speaker in areas with high humidity or high salt content.
- 5. Do not use the speaker in areas with high dust or dirt content.
- 6. Do not use the speaker in areas with high magnetic field or high electromagnetic interference.
- 7. Do not use the speaker in areas with high radio frequency interference.
- 8. Do not use the speaker in areas with high vibration or high shock.
- 9. Do not use the speaker in areas with high pressure or high vacuum.
- 10. Do not use the speaker in areas with high temperature or high cold.

CAUTION

- 1. Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.
- 2. Extreme temperature: 45°C max.
- 3. This product conforms with standard EN50338. Use carefully with the earphone. Possible excessive sound pressure from earphones and headphones can cause hearing loss.

FCC Warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- 1. Reorient or relocate the receiving antenna.
- 2. Increase the separation between the equipment and receiver.
- 3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- 4. Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in
