1. SAFETY INSTRUCTIONS :

CAUTION: Keep small parts away from children.

Strangulation Hazard: Children can become entangled in cords. Power cords should be kept more than 3 feet away from the crib and baby's reach all the time. Baby monitors and cameras with power cords should never be hung on or near the crib. This product is not a toy and should be kept out of children's reach. This product contains small parts. Be care when unpacking and assembling the product.

Read and keep instructions: All the safety and operating instructions should be read before the video baby monitor is operated.

This product cannot replace responsible adult supervision.

Water and moisture: This product is designed for indoor use only. The unit should not be exposed to rain, moisture, dripping or splashing. No objects filled with liquid should be placed on top of, or beside the product, such as a glass or vase. This item should not be used near water.

DO NOT USE THE APPLIANCE:

- If the cord or plug is damaged .
- If your baby monitor is not operating properly or has suffered any damage.

Contact service: The service center to request inspection and repair it in order to avoid any possible risk.

DO NOT: Attempt to repair or adjust any of the electrical or mechanical functions of the unit since, if you do, the guarantee will be made void.

Ventilation: This baby monitor should not be used on a bed, sofa, rug or similar surface that may block the ventilation openings, or be placed in an

enclosed area, such as a bookcase or drawer that may impede air flow.

Keep away from sources of heat: This unit should not be exposed to direct heat sources such as a candle, replace, radiator, heat register, stove or other appliance that emits heat. The unit should not be left in direct sunlight.

Power source: This unit should only be used with the adapter included in this package.

Damage requiring service: This unit should be serviced by qualified personnel .

 **WARNING: IR emitted from this product. Do not stare at operating lamp !!**

 **CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.**

FCC STATEMENTS:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and

if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC WARNING

2. WARRANTY TERMS

We take quality very seriously. This is why all of our products come with one year warranty from the original purchase date against defects in workmanship and materials. If you have warranty or support issues please contact support@anmeate.com. We will definitely give you a satisfactory solution.

3. Important guidelines for installing your baby monitor

To use your parent unit and baby unit together, you must be able to establish a radio link between them, and the range will be affected by environmental conditions.

Any large metal object, like a refrigerator, a mirror, a filing cabinet, metallic doors or reinforced concrete between the baby and parent unit may block the radio signal.

The signal strength may also be reduced by other solid structures, like walls, or by radio or electrical equipment, such as TV, computers, cordless or mobile phones, fluorescent lights or dimmer switches.

Use of other 2.4GHz product, such as wireless networks (Wi-Fi routers), Bluetooth systems, or microwave ovens, may cause interference with this product, so keep the baby monitor away at least 5ft(1.5m) from these types of products, or turn them off if they appear to be causing interference.

4. PRODUCT OVERVIEW

4.1 What's included:

1. Parent unit x 1
2. Baby unit x 1
3. Adapter x 2
4. User manual x 1
5. Wall mount shim x 1

4.2 Parent Unit (Monitor)

4.3 Baby Unit (Camera)

4.4 Icons Overview:

 Signal	 Volume	 Zoom
 Alarm	 Brightness	 Night vision
 Lullaby	 ECO	 Talk to baby
 Camera	 Battery	 78°F Temperature

5. PLACEMENT OF THE BABY MONITOR

Aim to provide the viewing area: Select a location for the baby unit that provides a clear view of the area you want to monitor, which is free from dust, and is not in line -of- sight to a strong light source or direct sunlight. Avoid installing the baby unit where there are thick walls or obstructions between the camera and the monitor.

STRANGULATION HAZARD--keep cord out of child's reach.

Never place camera or cords within 3 feet of crib or playpen. NEVER use extension cords with adapter, only use the adapter provided.

6. USING THE BABY MONITOR

6.1 TURN ON THE BABY UNIT:

Only use the adapter included in this package.

Use the provided adapter to connect the wall outlet with the baby unit.

Once the adapter connects then the unit will turn on automatically and the power LED will light up.

6.2 TURN ON THE PARENT UNIT:

Only use the adapter included in this package.

The parent unit is supplied with a built-in rechargeable Li-ion battery. We suggest connecting the monitor to the adapter plugged into the mains whenever possible to keep the battery charged.

Press and hold the power key  5 seconds on the Parent Unit.

Once parent unit turned on , the power LED will light up and the image will display on the LCD screen.

6.3 CHARGING THE PARENT UNIT:

Connect the adapter to the Parent Unit.

Plug the adapter into the wall outlet.

When Parent Unit is turned off, charging LED on the Parent Unit will light in RED.

When Parent Unit is turned on, the charging LED will light in ORANGE and battery charging icon(charging bars) will appear at the top right corner of the LCD screen.

It takes about 8 hours to fully charge the battery.

Full battery indicator(4 fixed bars) will appear at the top right corner of the LCD screen, indicating the battery is fully charged.

Note: Before the first use or after a long product storage, it is recommended to fully charge the Parent Unit battery prior to operating the monitor.

7. OSD MODE OPERATION

7.1 PARENT UNIT SCREEN ON/OFF

Under the boot state, short press the power key  to turn on / off the screen.

7.2 VOLUME ADJUSTMENT

Under the boot state, press the UP key  to increase the volume.

Under the boot state, press the DOWN key  to decrease the volume.
