Subject: FCC Part 15C Class 2 PERMISSIVE CHANGE for Control Data Systems, Model VN210, FCC ID: 2AKZ5-CDSVN210ISA

The purpose of this report is to file for a Class II permissive change for the following reasons:

The form factor and core functionality remain the same as the previously certified design, but with the following addition:

1. New flex type antenna

Taoglas Part No. FXP73.09.0100A 2.5 dBi Gain with MMCX(M) RA Connector

No other hardware changes have been made to the original product. No changes to the transmitter circuitry of the radio, the changes described in this filing result in the same RF characteristics as in the original filing and the other original test results continue to be representative of and applicable to the equipment.

There is no increase in the output power; no RF Exposure condition changed; the device remains the same equipment class and there are no other changes to the device that indicate a need for a new FCC ID.

The test report shows that the product continues to meet the applicable subpart for CFR 47, Part 15.207, 15.209, and 15.247.

See the test report and additional submittal exhibits for details.

Best Regards,
