## Remote Mouse

DTH17002

### Manufacturer:

HangzhouTianyuan Pet Products Co.,Ltd

### Brief Introduction of the Remote Mouse Racer:

Similar to remote controlled cars, this product has the functions of going forward/backward and turning left/right. Put two AAA batteries into the battery compartment on the remote when using. There is a accumulator in the mouse. To have normal using, please make sure the batteries have sufficient powder. Recommended charging time for the accumulator: 30 minutes.

### Operation Instruction

1. Push down the switch under the bottom of the mouse body.

Charging Light

2. The use of the remote: Holding the remote with left hand on forward/backward buttons and right hand on left/right buttons.

3. Accumulator charging: This product comes with a USB cable for charging. You are suggested to use 5V 1A adaptor or connect it to a PC USB port to charge. Charging light: The light will be lit when charging the mouse and will get off when the mouse is fully charged.

Operating Frequency: 2404MHz, 2441MHz, 2478MHz

## Warning

Non-rechargeable batteries can not be charged.

Please do not mix different types of batteries.

Please do not mix old and new batteries.

Please do not mix alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium) batteries.

Before installing or replacing batteries, please check the polarity of the batteries.

Remove use-up batteries in time.

Please use only alkaline or rechargeable batteries.

Please take batteries out if you do not use the product for a long time.

## FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
