Quick Guide of Using Amazon Echo To Control Smart Devices

1.1. Download Smart Life APP

Please scan the QR Code, or get Smart Life downloaded from App Store or Android Market.

1.2. Register an account in Smart Life

Open Smart Life into account registration page, click on the upper right corner of the "Register".

 Select the WiFi you are using and input the password, Click "next"to connect the device.

1.4. Rename the device

After the device is added successfully, click the device description text to modify device name. The name of the device is recommended to use easy pronunciation of the English words. (Amazon Echo only supports English temporarily)

| ***** 中国形式 令 | 4:06 PM | U @P 🕈 📻 | 99999 中国花街 名 | 4:08 PM | 6 36 H |

| | | | | | |

Multiple devices can be added and renamed according to the above procedures.

2. Enable Smart Life skill in Alexa APP

Choose "Skills" in the options bar, and then search "Smart Life" in the input box.

Select Smart Life in the search results, and then click "Enable Skill".

Then input the user name and password that you had previously registered. Only support the account in the United States.

3. Control Smart Bulb by Voice

After the above operation is successful, you can control the bulb via Echo.

3.1. Discover devices

Firstly, you need to say to Echo:

Echo(or Alexa), discover my devices.

Echo will start to find the devices which is added in Smart Life APP, which will take about 20 seconds, then it will tell you the result.

You can also click "Discover devices" in Alexa APP, then it will show the devices that found successfully.

| Alexa found 3 Sr Home devices. | mart Discover devices |
| | Sort by Newest V |
| living room light Bulb | Forget |
| bedroom light Bulb | Forget |
| kitchen light Bulb | Forget |
| Forg | et all devices and groups |

3.2. Control devices by voice

Attention: The name of the device must be consistent with the addition of Smart Life app.

You can also group the bulbs and give instructions to control them together.

| < Smart Home | < Smart Home |
|--|--|
| Connecting devices and services enables any person speaking to Alexa to operate those products. Learn more. Your Groups use groups to control multiple devices at a time. | my smart lights Devices in this group Alexa works best with group names she can understand like "Living Room" or "Upstairs". Names that include numbers, like "Kitchen 1", can be hard for Alexa to understand. |
| You don't have any groups yet Create group | ✓ kitchen light ✓ living room light |
| Your Smart Home Skills Use Alexa to control cloud-connected cevices on other services. | I bedroom light |

Attention:

Echo is one of the wake-up names, which can be any of these three names(Settings):Alexa,Echo,Amazon

3.3. Support Skill list

You can control devices by instructions like these:

- Alexa(or echo), turn on [bedroom light]
 Alexa(or echo), turn off [bedroom light]
- •i) Alexa(or echo), set [bedroom light] to 50 percent Alexa(or echo), increase [bedroom light] to 50 percent
- •1) Alexa(or echo), decrease [bedroom light] to 50 percent Alexa(or echo), set [smart heater] to 34
- •1) Alexa(or echo), raise [smart heater] by 4 Alexa(or echo), lower [smart heater] by 2

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
