

How to use

Please follow the below guide to use the insoles properly

1 Charge insoles ⚠ First time to use? Please charge at least 30 minutes before use.

- 1) Connect the wireless charging pad to the electrical power adapter with the included electrical charging cable.
- 2) Power adapter is not included, and it is recommended to use the product rated voltage for 5V, 1.5~3A.
- 3) When you place the back-heel part of insoles on the charging pad, the side LED shows the charging status.

- LED slow flashing : Charging standby
- LED fast flashing : Charging
- LED is on : Fully charged

2 Download application

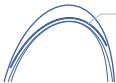

Through the QR link, you can download and use the various apps we provide.

3 Connection between insoles and application

- 1) Place your charged insoles into shoes and turn on the Bluetooth.
- 2) When you run the downloaded application, you will see the connection guides provided.
- 3) Follow the guide until calibration process and it will complete the connection process. We recommend the calibration process at least once in a month for the accurate measurement.

Fitting guide

- ⚠ Take out the insoles of shoe and cut it to the same size. Please be careful not to cut over the bottom line that marked on the product. If sensor is damaged, it may not work.

4 Enjoy smart insoles

- 1) Now you can check the proper posture balance and get the recommended exercise from the application provided by SALTED.

- ⚠ You can charge the insoles without taking out them from the shoes. Our insoles are optimally designed for charging while insoles are inside of shoes.

- 2) If smart insoles are unused for a long time, please charge before use. You can check the battery level on the applications.

- ⚠ The battery of insoles can last 7 days for standby mode and 3 days for continuous use. (Usage periods can be varied depends on the condition of the product)

Specifications

Please note the technical information

- Transmission/reception frequency: Bluetooth(BLE): 2402MHz ~ 2480MHz
Bluetooth(BLE) Class2 Max: 4dBm
 - Supply voltage: DC 3.7V(Battery)
 - Operating temperature: -10°C ~ +50°C
 - Wireless charging pad rating: 5V, 1.5A or more
- ⚠ Insoles may have possibility of radio interference.

Product certification

Our product is certified in various regions

- Model name: ST-WPAD001
- Company name: SALTED Co., Ltd.(<https://www.salted.ltd>)
- Name of apparatus: Wireless Charger for SMART INSOLE
- Manufacturing date: Marked separately
- Manufacturer: SALTED Co., Ltd.
- Manufacturing country: MADE IN KOREA
- FCC Certified number : 2AL6N-ST-WPAD001
- KC Certified number : R-R-IOF-ST-WPAD001

FCC Compliance Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Precautions

Please note the precaution to prevent the damages

- Please use the insoles after reading this manual.
- Be careful of sizing of the insoles, otherwise measurement data can be inaccurate.
- We recommend to wear the shoes sizes a bit bigger (<5mm) for a wear of comfort.
- Bluetooth connectivity can be varied depending on the surrounding conditions.
- Please be aware of metallic, magnetic materials (>20cm) near wireless charging pad. It could interrupt the charging or product may not work.
- Please use proper power adapter or wall charger with provided charging cable.
- Do not connect the charging cable directly to USB port on laptop or PC. It may damage or degrade the products.
- If you need to restart or turn off the insoles for the occasional uses, please follow the below process. Please note that wireless charging pad is needed to turn the insoles on.

Turn off the insoles

- 1) Flip the insoles and press hard the heel part with using a thumb and index finger.
- 2) If you hold pressing for 10 seconds, there will be a vibration.
- 3) Insoles will be turned off when it is flipped again.
- 4) Please place the insoles on the wireless charging pad to turn them on.
