

Safety Instruction

CAUTION

- Use only power supplies and rechargeable battery listed in below.

Power adaptor model: ZHT061U-0850500 (CHNHT INTERNATIONAL (HK) CO LIMITED)

Battery model: 402035 (OI NAN TECHNOLOGY LTD)

- Risk of explosion if battery is replaced by incorrect type disposed of used batteries according to the instruction.
- Battery cannot be subjected to high or low extreme temperatures, low air pressure at high altitude during use, storage or transportation.
- Replacement of a battery with an incorrect type that can result in an explosion or the leakage of flammable liquid or gas.
- Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas.
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.
- The applied nameplate is located at the bottom of the product's base.
- For PLUGGABLE EQUIPMENT, the socket-outlet shall be installed near the equipment and shall be easily accessible
- Operating, charging and storage temperatures are 32°F to 104°F (0°C to 40°C)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

- NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna
 - Increase the separation between the equipment and receiver
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
 - Consult the dealer or an experienced radio/TV technician for help

The USB cable(s) included in this package must be used with this product to ensure compliance with the Class B FCC limits.

RF Radiation Exposure

This product compliances with FCC RF radiation exposure limits set forth for an uncontrolled environment.

For Base unit:

Caution: To maintain the compliance with FCC's RF exposure guidance, place the Base unit at least 20cm from nearby persons.

The USB port on base station is for data transfer only without charging function.

Industry Canada

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference
2. This device must accept any interference, including interference that may cause undesired operation of the device.

This Class B digital apparatus complies with Canadian requirements CAN ICES-003(B)/NMB-003 (B)

Instructions de Sécurité

PRÉCAUTION

- Utilisez uniquement les alimentations et la batterie rechargeable énumérées ci-dessous.

Adaptateur secteur modele: ZHT061U-0850500 (CHNHT INTERNATIONAL (HK) CO LIMITED)

Modele de batterie: 402035 (OI NAN TECHNOLOGY LTD)

- ATTENTION: Remplacer une batterie par une batterie incorrecte peut provoquer une explosion ou une fuite de liquide ou de gaz inflammable.
- La mise au rebut d'une batterie dans un feu ou un four chaud, ou l'écrasement ou la découpe d'une batterie, peut entraîner une explosion.
- Mettre au rebut les batteries usagées conformément aux réglementations locales.
- La batterie ne doit pas être soumise à des températures extrêmement élevées ou basses ou à une basse pression atmosphérique à haute altitude pendant son utilisation, son entreposage ou son transport.
- Laisser une batterie à des températures très élevées peut provoquer une explosion ou une fuite de liquide ou de gaz inflammable.
- Une batterie sous très faible pression d'air peut causer une explosion ou une fuite de liquide ou de gaz inflammable.
- Pour l'équipement à brancher, la prise doit être proche de l'équipement et facile d'accès.
- La plaque signalétique se trouve en bas de la base du produit.
- Les températures de fonctionnement, de charge et d'entreposage sont de 0 °C à 40 °C (32 °F à 104 °F)

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) L'appareil ne doit pas produire de brouillage;
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

CAN ICES-003 (B) / NMB-003 (B)
