 with attached controller and
 pre-installed mounting adhesive
1 – Quick Start Guide
1 – Set of Mounting Bracket Clips
 and Screws (optional install method)

x4

TIP Before mounting your LED Light, make sure it is paired and set up in app first.

SETUP

1. Download the Monster Smart app or the Smart Life app from the App Store (for iPhone) or Google Play Store (for Android phones).

App Store | **Google Play**

⚠ Note: Monster Smart devices only work on a 2.4GHz Wi-Fi network.

---

2. Open the app and create an account by following the on-screen instructions.

3. Plug the LED Light and the attached controller into a USB power source (not included). The LED Light should start blinking rapidly.

EZ MODE	Rapidly blinking LED	EZ Mode (default) for quick and easy pairing setup.
AP MODE	Slowly blinking LED	Access Point Mode (secondary setup, requires multiple steps for pairing) follow the on-screen step by step instructions.

NOTE: Press and hold the controller button for 5 seconds to change between setup modes.

4. In the app, select "Add Device" and then "Lighting Devices". Follow the on-screen instructions to set up your device.

NOTE: make sure your phone is connected to the Wi-Fi network that your Multicolor LED Light will be placed on.

5. Confirm that the LED Light is still rapidly blinking, confirm that the network Wi-Fi displayed is your 2.4GHz Wi-Fi network, enter your Wi-Fi password and click confirm.

6. Your smart Multicolor LED Light will now be connected to the network. Confirm the settings for your device and then click finish device setup.

INSTALLATION

1. Determine where you will install the Multicolor LED Light. (make sure the location is close enough to a power source.)

Peel off adhesive backing

OR

install rubber brackets over light

2. Peel beginning of adhesive backing off and firmly stick LED Light onto surface.
3. Peel off more of the adhesive backing as you mount the LED Light.

NOTE: For best mounting results, place adhesive onto desired surface with ONE attempt. Reapplying multiple times will not guarantee secure mounting onto surface.

⚠ Note: Please do not connect extra lights to this product.

USE

Control your light settings using the app.

Manually pressing the controller button will cycle the Light through a few colors, preset modes or turn off.

NOTE: If you need to reset your Multicolor LED Light or change the setup, simply hold down the controller button for 5-10 seconds to reconnect the device.

VOICE CONTROL SETUP

works with the **Google Assistant**

Works with your Google Assistant enabled devices for a hands-free experience.

1. Open the Google Home app and go to Home Control in the menu. Tap the "+" button to add a new device.

2. Select Monster Smart or Smart Life from the list of Home Control partners and authorize your account using your login information.

NOTE: Use the same login information that you used to setup your Multicolor LED Light on your home Wi-Fi network.

3. If desired, you can use the app to set a nickname or room for your device. Your device is now ready to use!

To control your Monster Multicolor LED Light, just say "OK Google" and ask:
"Turn on my light"
"Set my light to blue"
"Dim my light to 50%"
and more!
