

device. Once paired, you can control phone functions with earbud controls listed

• Press and hold the [Multi] button on either earbud to reject an incoming phone

The MERKURY E038T earbuds should pair to each other automatically when powered ON. If the earbuds come un-paired from each other or only one earbud

1. Go to your device's Bluetooth settings and find the earbuds on the list of Bluetooth devices. Tap to manually "Forget" the earbud(s), then turn your

3. After a moment, the earbuds should automatically re-pair to each other. A voice

4. Once re-paired, you can now pair the earbuds to your mobile device. Turn your device's Bluetooth back on again. Follow the instructions in the Bluetooth

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

o Reorient or relocate the receiving antenna.

o Increase the separation between the equipment and receiver.

o Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

o Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
