Charging Your Headset

1.Use a charger with DC5V output voltage or USB charging cable connected to a computer to charge the headset.

2. During charging, the indicator light will turn red.

3. When the headset is fully charged, the red indicator light will turn blue.

Note:

Use only chargers approved by QCY, the use of any other chargers may invalidate warranty, and may be dangerous.

Repeated charging and discharging of the headset will cause the degradation of the battery performance.This is normal for all rechargeable batteries.

If the headset has not been used for over three months, please charge it before using.

Pairing with a Computer

1. If your computer is not equipped with Bluetooth function, a Bluetooth adapter is necessary. Plug the adapter into your computer and ensure its Bluetooth function is activated (refer to the specification of the adapter for how to activate it).

2. Turn on the device and enter the paring mode,

3.Start the Bluetooth control software on your computer or the built-in software of the operating system, for example, the IVT software, and select the "search for Bluetooth devices" menu;

4.Once the headset is found, "name of Bluetooth" will be displayed in the devices list. Select the device, right click and select "pair with this device". Select the device again, right click and select "connect to audio device";

5. Open your media player to play music, watch TV/films or play games, then you can hear all the sound from the device.

Pairing with a Phone

To use the Bluetooth headset, first you need to pair it with your phone or computer. If the headset was once paired with a phone, within operating range, they will automatically connect to each other in future; if with a computer, you will just need to select "connect to audio device" in future.

Pairing and using with your phone:

1. Activate the Bluetooth function on your phone and search for the Bluetooth headset (refer to the phone's User Manual).

2.Long press the multifunction button until the headset's indicator light flashes red and blue alternately. Now the headset goes into pairing state (you will hear the voice prompt "pairing") .

3.Select the headset from the list of devices found by your phone.

4.If a PIN code is required for pairing, enter "0000" to pair and connect the headset to your phone.

5. When prompted by your phone to confirm this pairing, press the OK or YES key.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

— Reorient or relocate the receiving antenna.

— Increase the separation between the equipment and receiver.

— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

— Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
