Safety Guide

Caution:
To avoid electrical shock, do not open the housing of this product. In addition, users do not need to use the product's internal parts. To repair the product, please contact qualified maintenance personnel or mail the product to our after-sales department.

1) Please read this guide carefully.
2) Please keep this guide.
3) Please observe all warnings.
4) Please follow all instructions.
5) When cleaning this product, use a dry cloth only.
6) Choking hazard - This product contains small parts. It is not suitable for children under the age of 3.
7) Do not put this product near a heat source, such as a heating radiator, hot air regulator, stove, or loudspeakers (including amplifiers) that produce heat.
8) Do not use this product if you must remain alert of your surroundings, for example, while driving a car or riding a bike.
9) Do not submerge this product in water or expose it to a damp environment for a long period of time. Do not use this product when engaging in water sports, such as swimming or surfing.
10) Please protect the power cable and audio cable. Do not step on or apply pressure on them. Do not pull on the product's plug, socket, or cable outlet.
11) It is recommended that users use the accessories that have been specified by the vendor.
12) Do not expose the battery to environments with excessive heat, such as direct sunlight or sources of fire.
13) Connect a power supply within the specified voltage range.
14) If a power cable that is connected to the product is not currently being used to charge the product, please disconnect the power cable from the port and shut off the power supply.
15) To repair the product, please contact our professional maintenance personnel. If the product is damaged, the product should be repaired. For example, if the power cable or plug is damaged, liquid has flowed into the product, an object has fallen into the product, the product has come into contact with rain or moisture, the product cannot operate properly, or if the product has fallen.

FCC statements

Federal Communication Commission (FCC) Radiation Exposure Statement
The device has been evaluated to meet general RF exposure requirement, The device can be used in portable exposure condition without restriction
FCC statements:
This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
  - Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help.

ISED:
CAN ICES-003(B)/NMB-003(B)
This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:
this device may not cause interference, and
(2) this device must accept any interference, including interference that may cause undesired operation of the device.
Cet appareil est conforme avec Industrie Canada RSS exemptes de licence standard(s).
Son fonctionnement est soumis aux deux

conditions suivantes:
(1) cet appareil ne peut pas provoquer d'interférences, et
(2) cet appareil doit accepter toute interférence, y compris celles pouvant causer un mauvais fonctionnement de l'appareil.

This Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Radiation Exposure Statement
The product comply with the Canada portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

Déclaration d'exposition aux radiations:
Le produit est conforme aux limites d'exposition pour les appareils portables RF pour les Etats-Unis et le Canada établies pour un environnement non contrôlé.
Le produit est sûr pour un fonctionnement tel que décrit dans ce manuel. La réduction aux expositions RF peut être augmentée si l'appareil peut être conservé aussi loin que possible du corps de l'utilisateur ou que le dispositif est réglé sur la puissance de sortie la plus faible si une telle fonction est disponible.

CE statement

EU Regulatory Conformance
Hereby, SHENZHEN EMEET TECHNOLOGY CO., LTD. Corporation declares that this device is in compliance

with the essential requirements and other relevant provisions of Directive 2014/53/EU.

For the declaration of conformity, visit the Web site www.emeet.ai.

ϵ ϵ

Due to the used enclosure material, the product shall only be connected to a USB Interface of version 2.0 or higher. The connection to so called power USB is prohibited.

CAUTION RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS

If you use a third-party charger, the recommended output voltage/current of the adaptor is 5Vdc/1A.,and the adapter shall be CE approval type.

The suitable temperature for the product and accessories is 0~35℃.
