

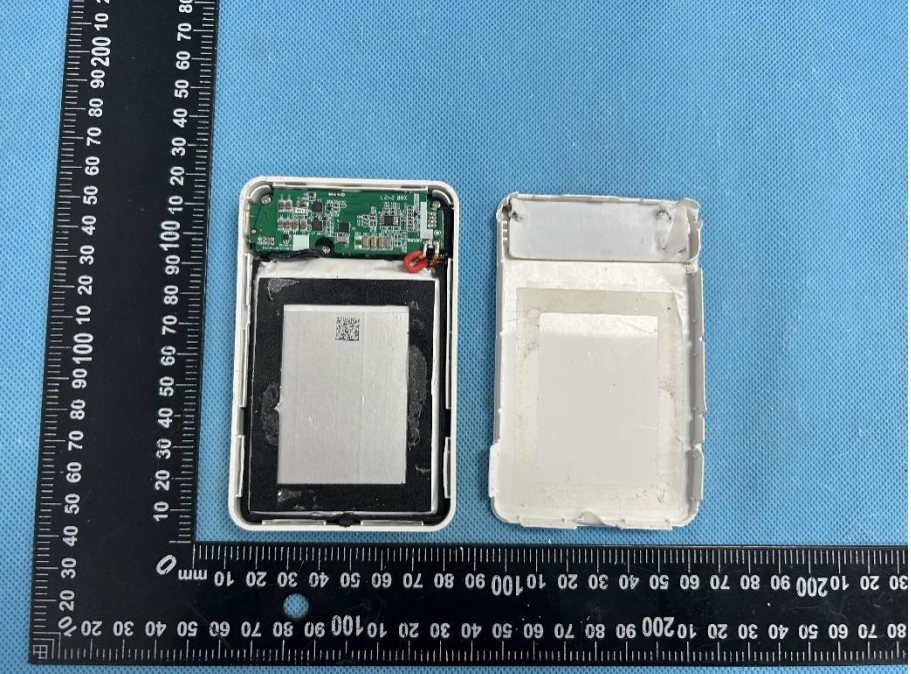

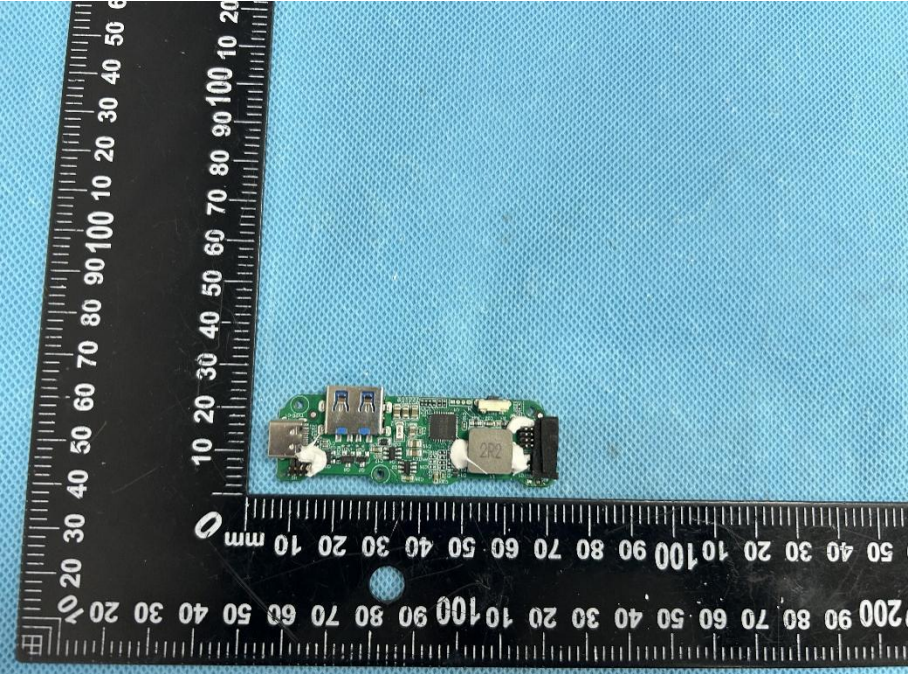

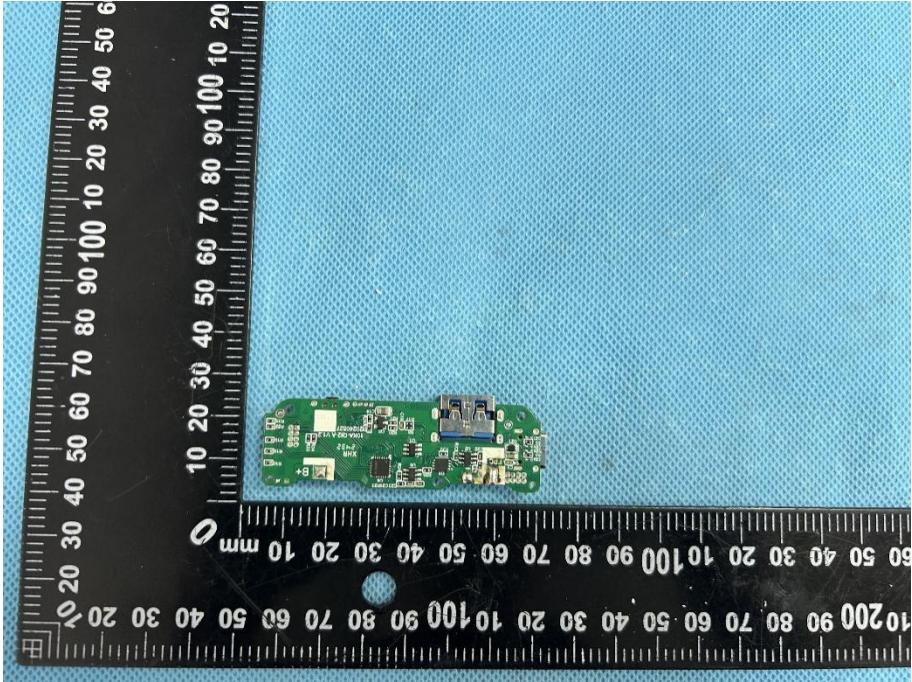

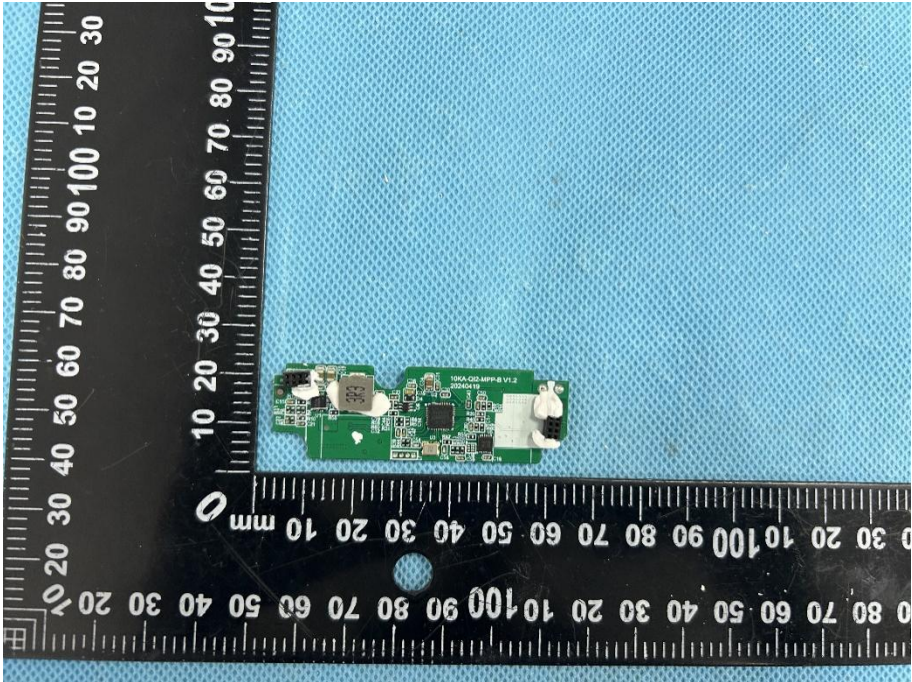

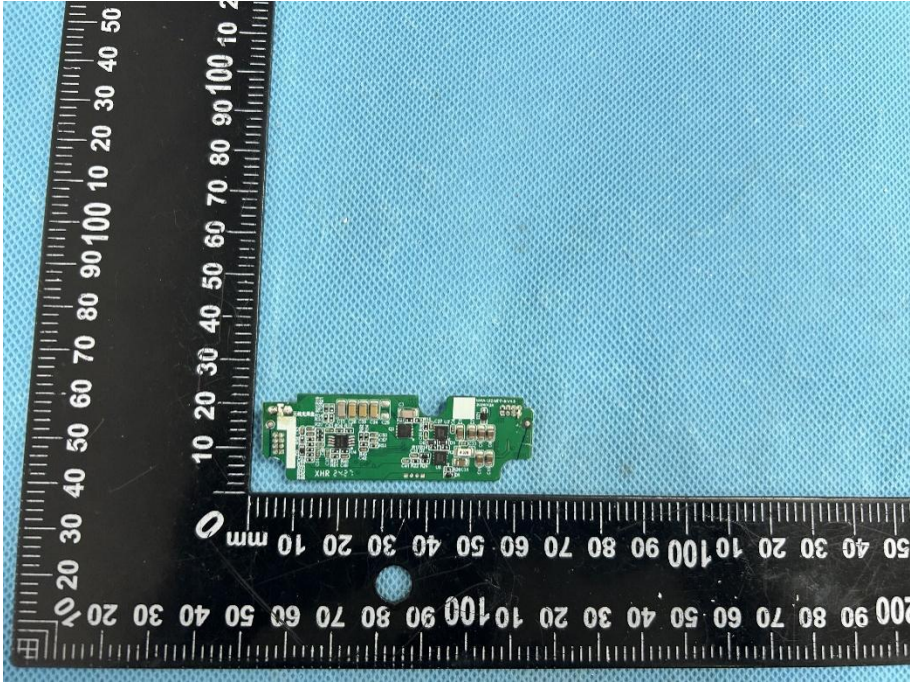

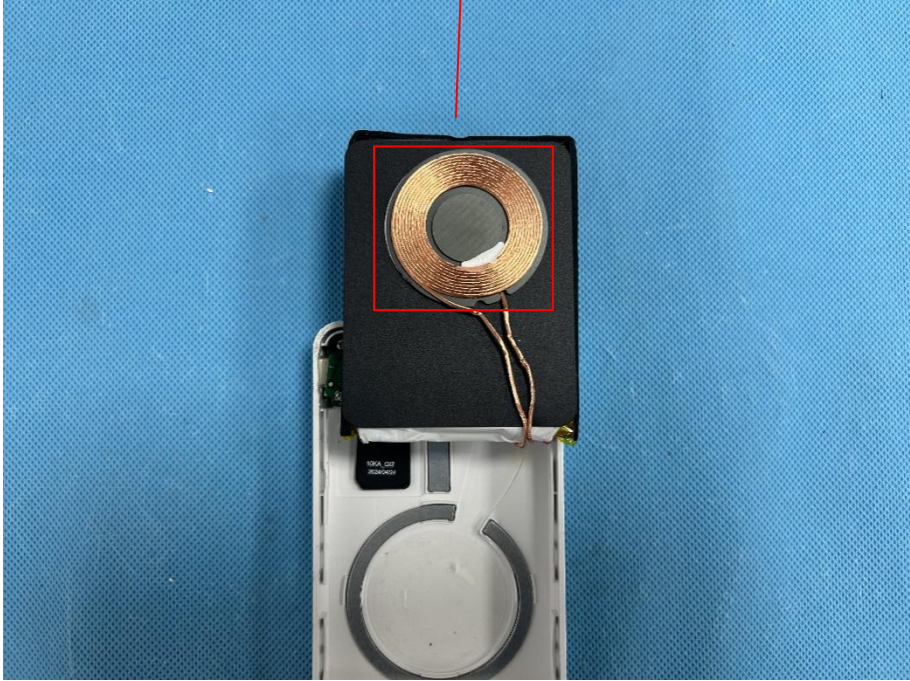

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	 <p>A photograph showing the internal components of an EUT (Electronic Unit Tester) housing. On the left, the green printed circuit board (PCB) is visible, featuring various electronic components and a USB port. To its right is the white plastic housing, which appears to be the back cover or a protective layer. Both items are placed on a blue textured surface next to a black ruler with white markings for scale. The ruler shows measurements in millimeters and centimeters.</p>
<p><b>Solder Board-Component View 1</b></p>	 <p>A close-up photograph of a small green PCB component, likely a USB-to-UART bridge, soldered onto a larger board. The component has a USB connector on one side and a UART connector on the other. It is positioned on a blue textured surface next to a black ruler with white markings for scale. The ruler shows measurements in millimeters and centimeters.</p>

<p><b>Solder Board-Component View 2</b></p>	 A photograph showing a small green printed circuit board (PCB) component. The board is rectangular and populated with various electronic components, including a large integrated circuit (IC) in the center, several smaller ICs, and surface-mount components. The board is placed on a blue textured surface. A black L-shaped ruler is positioned around the board for scale, with markings in millimeters. The ruler shows the board is approximately 40mm wide and 25mm high.
<p><b>Solder Board-Component View 3</b></p>	 A photograph showing the same green PCB component from a different perspective. This view shows the top surface of the board, highlighting the central IC and the surrounding components. The board is placed on the same blue textured surface. A black L-shaped ruler is positioned around the board for scale, with markings in millimeters. The ruler shows the board is approximately 40mm wide and 25mm high.

<p><b>Solder Board-Component View 4</b></p>	 <p>A photograph of a small green printed circuit board (PCB) component, likely a wireless charging antenna, placed on a blue textured surface. A black L-shaped ruler is positioned next to it for scale. The ruler shows measurements in millimeters, with the horizontal scale ranging from 0 to 100 mm and the vertical scale from 0 to 50 mm. The PCB component is rectangular and contains several small electronic components and solder joints.</p>
<p><b>Antenna View</b></p>	 <p>A photograph showing the back of a white mobile phone with a black protective cover. A circular, copper-colored antenna is visible on the back cover, highlighted by a red square. A red line points from a text box labeled "Wireless Charging Antenna" to the antenna. Below the antenna, a small black component is visible, labeled "159A_02".</p>
