FCC Application for FCC ID 2ALEPT0008387

To whom it may concern,

I, the undersigned, certify the following:

- The 3G/4G LTE transmitter module IC 2417-EM7455, FCC ID N7NEM7455, is only available in certain models of FCC ID 2ALEPT0008387, namely T0005006 and T0005010.
- For evaluation purposes, model T0005010 was tested to ensure worst case mode testing and to address co-location issues.
- Installation and operation instructions for transmitter module IC 2417-EM7455 have been provided to the integrator. The information includes regulatory compliance details regarding human exposure and minimum separation distance.

Regards,

A handwritten signature in blue ink, appearing to read "Tom Danshin", is written over a light blue horizontal line.
