

# ORBIT

The logo consists of a solid black circle on the left, containing a white Wi-Fi symbol (three curved lines). To the right of the circle, the word 'ORBIT' is written in a tall, thin, black, sans-serif font.

USER MANUAL

**MODEL: Orbit Keys FMN**

Orbit Keys is a Bluetooth device designed to find your keys in seconds. Beautifully crafted from anodised aluminum, it's not only a handy gadget, but also a stylish accessory for your keys.

## **About the App**

Orbit Keys FMN works with Apple Find My APP in your phone.

## **How to use the Orbit Keys and App**

1. Open the Find My APP. Select Items and Add Item to add the device into your app.
2. Then you can ring the device when it's in the Bluetooth range and find the current or last location on the map.
3. You also can use Notify when found after lost connection to get notification.

Indicator: Blue LED

Range:0-50M;

Buzzer: 90DB

Battery: CR2025

Voltage: 3V

Operating temperature: 0-50°C ;

### FCC Statement:

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try correct the interference by one or more of the following measures:

- Reorient the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into and outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.
