Specifications

Speaker	40mm Neodymium
Impedance	4 Ω
Speaker power	3w
Frequency response	20Hz-20K Hz
Bluetooth version	V5.0
Radio frequency range	2.402GHZ~2.480GHZ
Transmit distance	≥10m (barrier-free)
Battery	Rechargeable lithium ion battery, 3.7V, 1200mAh
Charging	Computer USB interface, output DC 5V/1A charger
Charging time	About 4 hours
Working time	About 10 hours
Pairing products	Bluetooth computer with HFP, A2DP, AVRCP Bluetooth protocol, USB Bluetooth adapter, Bluetooth cell phones, etc.,

Disposal of waste electrical appliances:

This product or the product with the above mark shall not be treated together with other household wastes at the end of its service life. In order to prevent possible damage to the environment or personal health due to uncontrolled waste treatment, please

separate this product from other types of wastes and recycle this product responsibly, so as to promote sustainable reuse of material resources. Please contact the seller of the company's products or local relevant institutions to understand the environmental protection recycling list of household users' electronic products for appropriate recycling. Enterprise users should contact their suppliers and check the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications, However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC ID: 2ALHZBT-330
