

Specifications

Name: Mini Robot Builder
 Model: MRB1803
 Gross weight: 550g
 Input voltage: 3V ==
 Input current: 1.0A

Wireless connectivity: Bluetooth®4.1
 Materials: ABS and PC
 Ages: 6 years+
 Storage temperature: -20°C ~ 45°C (-4°F ~ 113°F)
 Operating temperature: -10°C ~ 45°C (14°F ~ 113°F)

Precautions

- Do not dismantle the electronic components. Remove the batteries from the battery cartridge if the product will not be used for a long time.
- Do not expose the product to sunlight, fire, heat or environments where temperature is above 60°C (140 °F).
- Do not short circuit.
- Do not crush or puncture.

- Regularly check for any damage to cord, plugs, enclosure and other parts. And they must not be used until the damage has been fully repaired.

IC Statement

This device complies with Industry Canada license-exempt RSS standard(s).

Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) L'appareil ne doit pas produire de brouillage, et (2) L'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

CAN ICES-3(B)/NMB-3(B)

FCC Statement

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.
 Attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
 Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- This equipment should be installed and operated with a minimum distance 20cm between the radiator and your body.

FCC ID: 2ALJ6-MRB1803

Manufactured by: Beijing AIQI Technology Co., LTD.
 Address: Room.D1203, The 11th floor, Block D, No.9 Shangdi 3rd St.,
 Haidian District, Beijing, 100085, China
 Made in China

Battery Installation

The Mini Robot Builder requires two AA batteries. Follow the steps below to install:

- The installing and uninstalling of batteries shall always be done by an adult.
- Open the battery cartridge lid by pushing in the direction indicated on the lid.
- Install the two AA batteries in accordance with the positive and negative polarity markings on the bottom of the battery cartridge and batteries.
- Place the battery lid correctly on the battery cartridge and push the lid into place. Check that the location hole is correctly aligned.

- This product requires two AA batteries.
- Non-rechargeable batteries cannot be recharged.
- Rechargeable batteries must be charged under adult supervision.
- Rechargeable batteries must be removed from the product before recharging.
- Different types of batteries or new and used batteries are not to be mixed.
- The supply terminals are not to be short-circuited.
- Batteries must be placed according to their correct polarity.
- Remove exhausted batteries from the product.

Correctly Powering On/Off

Connect the battery cartridge to the intelligent brick after installing the batteries.

- Power On: Turn on the battery cartridge, and then the intelligent brick's light is on with an audio prompt.
 Power Off: Turn off the battery cartridge, and then the intelligent brick's light is off with an audio prompt.
