Inserting Memory Card

⚠ Do not remove or insert microSD card when this product is powered on which may damage the card.

- ① Insert a microSD card with the gold contacts facing the screen side of the dashcam. Push the card until it clicks into place.
- ② To remove the microSD card, gently push its top edge inward until it clicks, and then pull it out of the slot.

Installing Your DashCam

Never install this product while driving.

Install this product near the rear-view mirror to obtain the best open-field view. Do not install in a location that will obstruct your required driving view.

Make sure that the lens is within the wiping range of the windshield wiper to ensure a clear view even when it rains.

Do not touch the lens with your fingers. Finger grease may be left on the lens and will result in unclear videos.

The mount is adhesive and may be destroyed if it is removed from the windshield.

- ① Attach the dashcam onto the mount.

- ① Select a location (A or B) on the windshield rear of the rearview mirror.
- ② Install the suction mount or remove 3M adhesive sticker and firmly affix the mount onto the windshield.

- ③ Hide cable into the seams around the edge of the dashboard.
- ④ Adjust the lens viewing angle to ensure that it is aligned with the road ahead.

Connecting To Power

- ① Connect the car charger and DashCam by using the charging cable.
- ② Plug the other end of the car charger to your vehicle's cigarette lighter socket.
