Answer/End: press Multi-functional button to answer the incoming call blue LED indicator flashes every 10s , press again to end call. 	<ol style="list-style-type: none"> Reject Calls: press & hold Multi-functional button for 2s to reject the incoming call. Siri: double press Multi-functional button Power Off:press & hold Multi-functional button for 1s until red LED indicator flashes three times. When battery voltage is lower than 3.3v, red LED indicator flashes every 10s. it emits "Battery Low" When charging, the headphone automatically turns off and red LED indicator lights on. Blue LED indicator will light on when fully charged. 	<p>abineo</p> <p>CERTIFICATE OF QUALITY</p> <p>Product model : BT80NC Pro Product name : WIRELESS HEADPHONE Execution standard number : GB 81-201905 Inspection date : Inspection personnel : Inspection conclusion : Pass</p>

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

This device may not cause harmful interference, and

This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
