WHAT'S INCLUDED

Earphones and Power Bank Charging Case

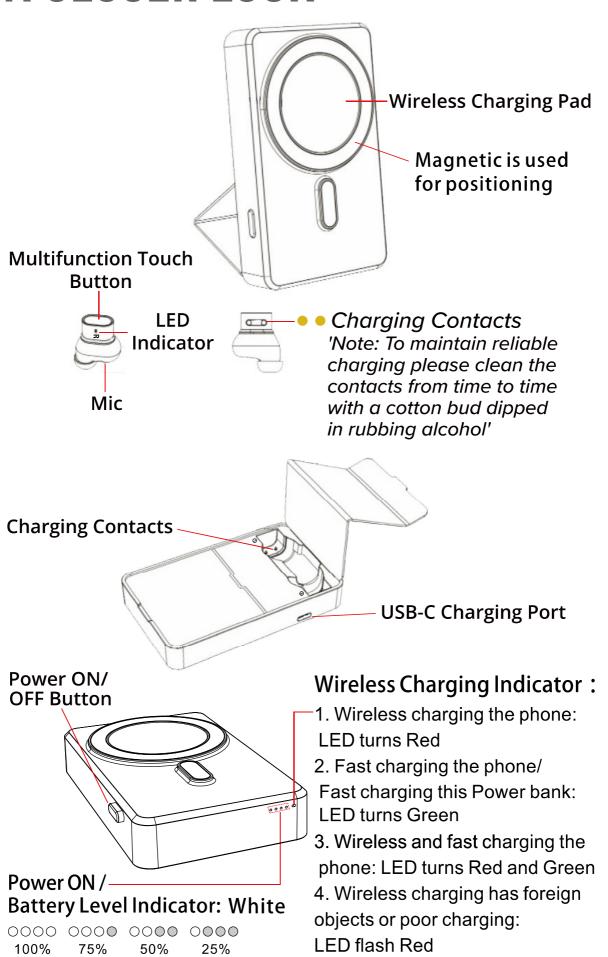

Silicone Eartips

USB-C to USB-C Cable

A CLOSER LOOK

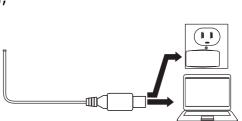

CHARGING

Charging the Power Bank Case

1. Insert the included charging cable's USB-C end into the charging port on the case. Insert the other end into a USB port on a computer or a suitable wall adapter. Leave to charge.

2. While charging the power bank's battery level indicator lights will light up as it charges. One light for 25% charged, two for 50%, three for 75%, and four for 100%.

Charging Phones

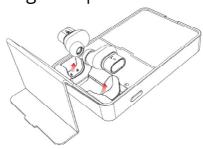

You can charge your devices through two methods.

- 1. Wireless charging can be done with wireless charging compatible phones. Remove any phone case. Place the mobile device onto the charging pad. Position the device as close to the center as possible. While connected the power bank's indicator light will turn on.
- 2. Wired charging can be done for devices with a USB-C port. Use either a common USB-C to lightning cable or a USB-C to USB-C. Connect the two devices. The indicator light will turn on when successfully connected.

Charging Earphones

Place the earphones into the charging dock. Make sure the charging contacts connect. While charging, the earphones LED will glow red every three seconds. When fully charged the earphones LED will glow blue every three seconds. After a minute it will no longer glow.

Note: The earphones will automatically charge when inserted. If they are not charging charge the power bank.

POWERING ON/OFF

Turning ON/OFF the Power Bank Case

To turn ON, press the power button or place a mobile phone with wireless charging capabilities on the charging pad to automatically boot up the power bank.

To turn OFF press the power button twice. The power bank will also automatically turn OFF after ten seconds of not being in use.

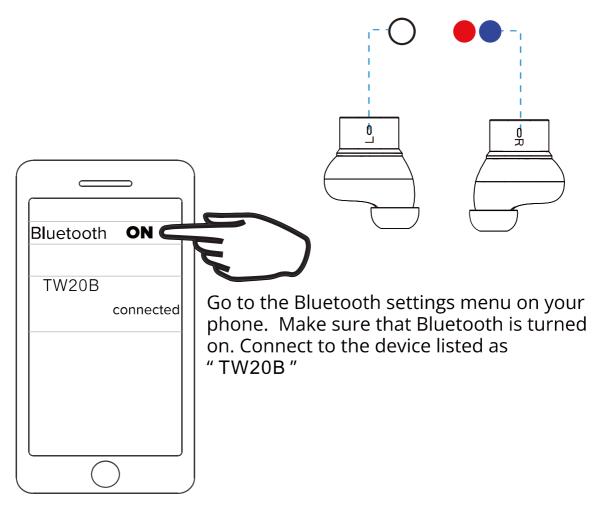

Turning ON/OFF the Earphones

When first using your earphones, place them into the case. When you remove them from the case, they will automatically turn ON. When you place them back into the case, they will automatically turn OFF.

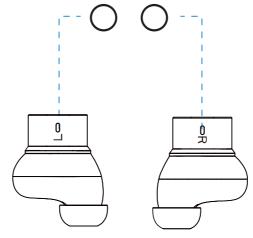

Note: If the LEDs on the earphones do not turn on when they are removed from the case, charge the case and try again. If the earphones do not pair together automatically, reset them.

BLUETOOTH PAIRING

Remove your earphones from the case. They will power ON and go into pairing mode. The LEDs on the earphones will flash blue and red. When paired the primary earphone will continue flashing while the secondary earphone's LED will turn OFF.

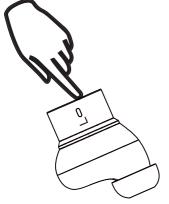

Both earphone's LED Indicators will turn OFF once Bluetooth is connected.

After setting up Bluetooth, the earphones will automatically re-connect to the device everytime you take them out of the charging case.

FCC STATEMENT

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -- Reorient or relocate the receiving antenna.
- -- Increase the separation between the equipment and receiver.
- -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -- Consult the dealer or an experienced radio/TV technician for help.
