QUICK START GUIDE

IN-EAR Bluetooth® HEADPHONES

Product Name: Bluetooth Headphone
Model Name :VH01

Package Includes:

- Bluetooth Headphone
- Micro USB to USB Charging Cable

Read this Quick Start Guide before using the product, and save it for future references.

In-Ear Bluetooth Headphones

Product Description:

1. Ear Hook
2. Ear Hook
3. Volume Up
4. Call/Play/Pause/Multifunction button
5. Volume Down
6. Ear bud

How to install the earbuds:

To Enjoy better sound quality, or to fit your ears, change the size of earbuds or adjust the earbud position to fit comfortably and snugly in your left and right ears separately. When you change the earbuds, turn them to install firmly on your headset and prevent the earbud from detaching and remaining in your ear.

How to place the headset on your ears:

1. Hang the neck band over the back of your ears.
2. Place the headset section horizontally and gently twist the headset into your ear until you feel comfortable.
3. And then turn up and place the hook behind your ear.
4. Do the same step on another ear.

Using your Bluetooth Headphones:

- Bluetooth On: Hold in the Call/Play/Pause/Multifunction button until you hear "Power On". The LED light will turn blue.
- Bluetooth Off: Hold in the Call/Play/Multifunction button until you hear "Power Off". The LED light will turn red.
- Pairing Mode: Use below instructions in "Bluetooth Pairing" section
- To answer a call: When there is an incoming call, press down the Call/Play/Pause/Multifunction button.
- To end a call: Press down the Call/Play/Pause/Multifunction button.
- Increase Volume: Press "+" button to increase volume levels
- Decrease Volume: Press "-" button to decrease volume levels
- Play/Pause: Quickly press down the Call/Play/Pause/Multifunction button.

Bluetooth Pairing:

- On your mobile device please turn ON Bluetooth.
- Power up Bluetooth headphones by pressing and holding the Call/Play/Pause/Multifunction button.
- The LED light will flash red/blue.
- On your Bluetooth device select "WV_BT Headphones."
- You are now paired!

Charging the battery:

- Charging the headset by USB charging cable (included in the package).
- The LED lamp is lit red while the battery is charged.
- The LED lamp is lit blue when the battery is fully charged.
- It takes around 25 minutes to fully charge the battery.

1. Connect the USB charging cable to the unit.
2. Connect the USB charging cable to your PC or USB wall charger (can't data transmission with PC)

* when the battery is low, a beeping alarm will sound, and the LED light will blink red. After a while, product will turn off.

Battery Information:

- Do not leave a fully charged battery connected to a charger; overcharging may shorten the battery life.
- If left unused a fully charged battery will lose its charge over time.
- Never use any charger that is damaged.
- Never leave the device in excess heat.

Made in China

Warning Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
