Dear Sir or Madam:

The chip CC2640 installed in our product Personal handheld facial massager (model name: LUNA 3, FCC ID: 2ALU9- LUNA3), which support BLE 1M and BLE 2M modes. But, for the product, it only activates BLE 1M mode, the other modes are disabled by using the software. Please contact me if there is need for any additional clarification or information. Best Regards,

Sincerely Yours,
