

Labeling

The NRU1C™ FCC label is permanently attached and located on the waterproof inner PCB housing chassis with the following materials:

Label Material: 3M 7908 WHITE

Label Adhesive: 3M 350 Permanent Adhesive

Ink: Norcote MSK UV Curable Ink

Label Protection: 3M 3658G Transparent Protection Film

It is viewable through the transparent top cap while being protected from the external environment allowing it to last the life of an NRU1C.
