## Unaliwear BG77 Labeling

To whom it may concern,

Under the provisions of 47 CFR § 2.925(f), Unaliwear Inc., has determined that it is impractical to label the Unaliwear BG77 module (FCC ID: 2AM4C-BG77) in a font that is four-points or larger due to the dimensions of the module.

The module's dimensions are approximately 11mm (length) x 11.5mm (width). Attached is a measurement of a sample BG77 module.

As provided in 47 CFR § 2.925(f) and KDB 784748 D02, Unaliwear, Inc. shall provide electronic labeling providing the FCC Identifier of the Unaliwear BG77 module in all subsequent integrations of module. Attached is a sample of the electronic labeling as will be presented for end users of this device, identifying the Unaliwear BG77 module.
