press for volume up.

Item Number: CB-335093
 Declaration ID: D033656
 FCC ID: 2AM7T-CB-335093
 Wireless Version: V4.2
 Signal to Noise Ratio: > 90 db
 Working Voltage: DC 3.7V
 Battery Type: 4000mAh Lithium Battery
 Frequency: 100Hz-20kHz
 Battery Capacity: 4000mA
 Charging Voltage: DC5V/500mA-1A
 Charging Time: 5 hrs
 Power Output: 5V 1A
 Speaker Power: 10W
 Music Playing Time: 8 hrs
 Wireless Range: 10 - 20 min.
 Charge via USB

1. Wireless Bluetooth Connection:

Press & hold power button. The blue light will flash. Activate your device's Bluetooth feature. In your settings, select 'TAG ALONG TRIO'. You will be notified once pairing is complete.

2. Power Bank:

Connect USB cable to Power Bank and device that needs charging. The light will shine white. Each indicator light represents 25% of power.

3. LED Flashlight:

Press and hold light button to activate LED flashlight.

WARNING:

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and

can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/ TV technician for help.

FCC Radiation Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, Human proximity to the antenna shall not be less than 20cm (8 inches) during normal operation
