

# BLUETOOTH® LOW-PROFILE MUFF

## INSTRUCTIONS

### Components:

- 1 Bluetooth® button
- 2 Volume/ Power Control
- 3 Charging Port
- 4 Headband Size Sliders
- 5 Rubberized Surface Coating

### How To Operate:

To turn power on, rotate wheel upward until the green light illuminates signifying that the power is on. The volume wheel will also serve as a base volume control. You are able to control volume from this wheel, and from your smartphone device.

### Bluetooth® Mode:

To initiate the Bluetooth® connection, press and hold the Bluetooth® button for 3 seconds. The blue light will begin to intermittently flash while your smartphone device is trying to identify the new headset. You will also hear an audible chime through the headset alerting you that the device has entered pairing mode with your smartphone. You will hear one more chime after the headset has been successfully connected to your phone. The device will now appear under the name "ULTRX" in your Bluetooth devices list. The next time you power up, your hearing protector will automatically connect to your device.

### Incoming Calls:

In Bluetooth® Mode, incoming phone calls will cause the music to be muted and you will hear your phone's ringtone until the call has ended. To answer an incoming call, press the Bluetooth® button once. To disconnect from a call, press the button once more. To reject a call and return to Bluetooth® audio, press and hold the Bluetooth® button continuously for at least 3 seconds.

### Charge/ Recharge:

Use the supplied USB-C cable to charge. The USB-C charging port for this product is located on the underside of the earmuff cup. It is covered by a weatherproof rubber plug to help protect the internal electronics from dust and water invasion. To charge, remove the plug and insert the charging cable into the port. When powered up, the Bluetooth® light will flash red indicating that the unit is charging. Charging times will vary depending on AC/ DC power sources and ambient air temperature. Charging times for this unit using an AC power source can vary from 2-3 hours on the average. After you are satisfied with charging, replace the rubber plug into the charging port.

### Specifications:

Model: AB/ S1  
Battery Type: 1200mAh, 4.44Wh Lithium Battery  
Voltage: 3.7V

### Safety Concerns:

**Hazard Description:** Not dangerous with normal use. Do not dismantle, open or shred the battery ingredients contained within or their ingredients products could be harmful. Do not inhale or ingest. Avoid skin or eye contact.

**Potential Health Effects:** Vapors or mists from a ruptured battery may cause respiratory irritation.

**Ingestion:** The battery ingredients contained within or their ingredient products can cause serious chemical burns of mouth, esophagus and gastrointestinal tract.

**Skin:** Skin contact with contents of an open battery can cause severe irritation or burns to the eye.

### First Aid Measures:

**Inhalation:** Remove source of contamination or move victim to fresh air. Obtain medical advice.

**Ingestion:** Rinse mouth thoroughly with water. Induce vomiting under the guidance of professional persons. Seek medical treatment in time.

**Skin Contact:** Remove contaminated clothes and rinse skin with plenty of water or shower for 15 minutes. Get medical aid.

**Eye Contact:** Irrigate with flowing water for 15 minutes. If irritation persists, consult a physician.

**Storage:** If the battery is subject to storage for such a long term as more than 3 months, it is recommended to recharge the battery periodically.

**Long period storage:** 14°F to 95°F [-10°C to 35°C]

Keep out of reach of children.

Do not expose the battery to heat or fire. Avoid storage in direct sunlight.

Do not store together with oxidizing and acidic materials.

Recycle or dispose of in accordance with government, state and local regulations.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
