### FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

### Powering On/ Bluetooth Pairing

*(When the earphones are not in the charging box)*  
**Press & hold both power buttons simultaneously for 3-4 Seconds**

**Once your earphones are powered on the LED Indicator Lights will alternately flash red and blue. After approximately 1-2 seconds, the light on one earphone will continue flashing and turn off on the other earphone. This means both earphones are paired together.**

**Check your phone's Bluetooth settings menu. Make sure that Bluetooth is turned ON. Connect with the device listed as VZ40031W.**

*(When the earphones are in the charging box just take them out and they will power on automatically.)*

*(If both earphones do not pair together after 10 seconds, insert both of the earphones into the charging case to let them power off, then take them out to power on again, and wait for them pairing automatically.)*
