User's Manual for MI-E001T-400
Included:
True Wireless Earbuds
Charging Case
Micro USB Charging Cable

IMPORTANT Please read before using this product

Charge It

- Plug the cable into the port on the bottom of each earbud.
- To recharge the charging case; connect the other end of the cable to either a computer USB port or to a USB-compatible charger.
- When charging, the LED indicator will glow red.
- Charging time is approximately 1-2 hours, When complete, the LED light will will be in red.

Pair & Connect with a New Device

- With the earbuds powered off, press & hold the power button on the earbud for 3-4 seconds until the LED light flashes red & blue.
  NOTE: If your earbuds are already turned on, you must first power off the earbuds before completing the above step.
- On your Bluetooth®-enabled smartphone, tablet, or media player, navigate to the Bluetooth settings menu to turn on the Bluetooth® feature and search for new devices.
- After a few seconds you will see "MERKURY E001T" listed.
- Tap this model to select it. The LED will begin to slowly blink blue, and the earbud will emit a tone to indicate that it has been successfully paired with your device.
- Press & hold the power button on the left earbud for 2-3 seconds. The earbud will power on and automatically connect to the right earbud.
  NOTE: If your device asks for a password to connect to the earbuds, enter "0000."
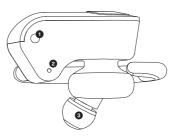

Power On & Off/Reconnect to Bluetooth®

- You only need to pair your Bluetooth® device with the earbuds once.
- With your previously paired device's Bluetooth® turned on and in range, press & hold the power button on the earbuds for 2-3 seconds.
- The earbuds will power on, a blue LED light will flash, and will automatically reconnect to the last Bluetooth® device they were connected to.
- To turn the earbuds off, press & hold the power button again for about 4 seconds. The LED light will flash red, and the earbuds will emit a descending tone to indicate that the earbuds are now powering off.
- If you have a previously paired device that does not auto-reconnect, navigate to the Bluetooth® settings menu on your device, turn on the Bluetooth® feature, and select "MERKURY E001T" from your list of paired Bluetooth® devices.

Play

- Connect your device to the earbuds via Bluetooth® (see "Pair & Connect with a New Device.")
- Open your favorite music app and press play.
- Control the music tracks and volume from your device or from the on-ear controls on the earbuds. Press the power button once to play/pause music & answer calls.
- Press the "➕" or "➖" button to raise/lower the volume on the earbuds.
- Press & hold the volume button to change tracks.
- All audio, including music, games, videos, and notifications will be routed through the earbuds.

Troubleshooting

No power	Recharge your earbuds using the included micro USB cable. Try using a different micro USB cable.
Music is not playing over Bluetooth	Make sure your Bluetooth® device has A2DP profile. Check if both devices are paired and connected over Bluetooth®. Restart the earbuds to reconnect your Bluetooth® device.
Bluetooth® device will not reconnect with the earbuds	Navigate to your Bluetooth® settings menu on your Bluetooth device, tap "MERKURY E001T," and select "Forget." Now follow the steps to pair your device again.
