Connection With Two Devices

EN

1. Pair with your first device.
2. Turn off the Bluetooth of the first device.
3. Long press headset to enter into pairing mode and pair with your second device. The blue light will flash slowly after successfully connected.
4. Turn on the Bluetooth of the first device and manually connect "Mpow HC3" in the paired list. After the connection is successful, your headset is connected to the two Bluetooth devices at the same time. (If the first device is the IOS, then you need to manually connect. If it is Android, it can be automatically connected.)

DE

1. Koppeln Sie mit den ersten Geräten.
2. Schließen die Bluetooth-Funktion mit den ersten Geräten.
3. Drücken Sie lange den MFB-Taste auf den Headset, um zu paaren. Wenn das blaue Licht langsam blinket, ist es ein erfolgreich zu koppeln.
4. Schalten Sie die Bluetooth-Funktion des ersten Geräts ein und verbindet mit den Headset "Mpow HC3" manuell in der Pairing-Liste. Nach erfolgreicher Verbindung hat Ihr Headset mit 2 Bluetooth-Geräten gleichzeitig erfolgreich verbunden. (Wenn das ersten Gerät mit IOS System ist, müssen Sie eine manuelle Verbindung herstellen. Beim Android als das ersten Gerät kann die Verbindung automatisch hergestellt wird.)

FR

1. Jumelez votre premier appareil.
2. Désactivez le Bluetooth du premier appareil.
3. Appuyez longuement sur le casque pour passer en mode de couplage, puis connectez-le avec votre deuxième appareil. La lumière bleue clignotera lentement après avoir connecté avec succès.
4. Activez la fonction Bluetooth du premier appareil, connectez manuellement le casque Mpow HC3 dans la liste des paires. Une fois la connexion établie, votre casque a connecté deux périphériques Bluetooth en même temps. (Si le premier périphérique est un système IOS, vous devez vous connecter manuellement. Si c'est Android, il peut se connecter automatiquement.)

ES

1. Conecte con el primer dispositivo.
2. Apague la función de Bluetooth del primero.
3. Mantenga presionando el botón para emparejar el segundo dispositivo. La luz parpadeará despaciamente después de la conexión.
4. Encienda la función de Bluetooth del primer dispositivo y conecte manualmente el auricular Mpow HC3 en la lista emparejada. Al emparejar correctamente, su auricular se conectará con éxito a los dos dispositivos de Bluetooth al mismo tiempo. (Si el primer dispositivo es de sistema IOS, necesita conectarse manualmente. Si es de Android, se puede conectar automáticamente.)

IT

1. Collega il primo prodotto.
2. Spegni il Bluetooth di primo prodotto.
3. Spinta a pulsante per entrare modo connessione, collega il secondo prodotto quando la luce blu splendace inifica ha collegato.
4. Accesso il Bluetooth sul primo prodotto, poi connessione "Mpow HC3" nei dispositivi associati, così tu cuffie ha connessione due prodotti. (Se il primo prodotto è sistema IOS, devi connessione con mano, qualche cellulare Android può autoconnessione.)

Win10 Compatibility Setting

FCC Statement

Any Changes or modifications not expressly approved by the party responsible for compliance could void the users authority to operate the equipment.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
