Symptoms	Causes	Solutions
Cannot switch the speaker on	Battery empty	Charge the battery
Unable to pair the speaker	Speaker is not under pairing mode OR Speaker is already paired with other device.	Set the speaker under pairing mode- Refer to the section of "How to pair wireless speaker with mobile device." OR disconnect with other device.

Charge the polymer lithium-ion Battery

⚠ **DO NOT PLUG INTO A MAINS POWER SOURCE**

The Bluetooth speaker is powered by an integrated rechargeable lithium battery. Charge the battery as follows:
1) Insert the charging cable into the DC 5V socket/micro USB port on the unit. Connect the USB plug into a PC or AC/DC adaptor. The LED indicator turns RED as the battery is being charged.
2) When the battery is fully charged, the RED LED indicator turns off.

⚠ **Take care of your speaker**

• Do not charge the speaker for longer than 4 hours. Avoid charging overnight or leaving the product unattended.
• Ensure that the USB cable is removed from the speaker / device after charging finishes.

• Do not use excessive force when inserting or removing the cable from the speaker to avoid damage to the socket or your devices.
• Do not modify, disassemble, open, drop, crush, puncture or shred the product.
• Keep the unit away from all metal objects (e.g. coins, keys, hair pins, etc.) and terminals (e.g. such as a hair pin) as this could result in short circuiting the product internally.
