

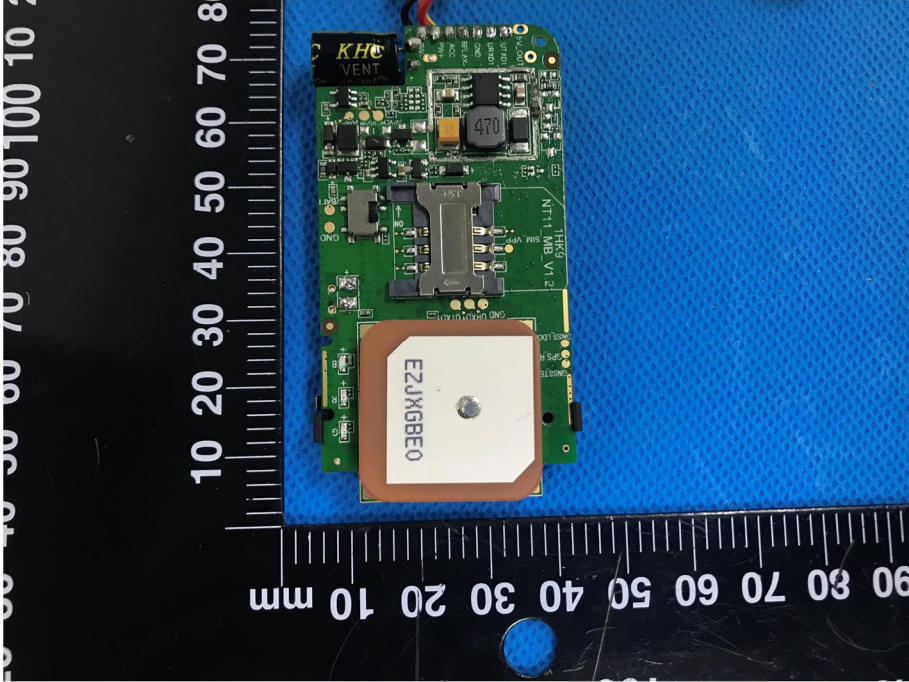

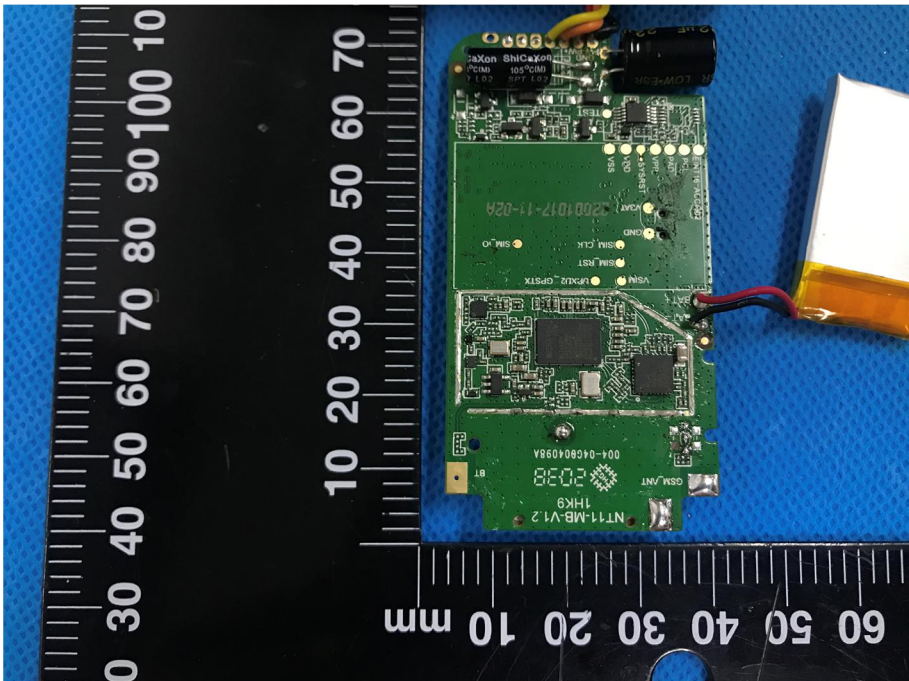

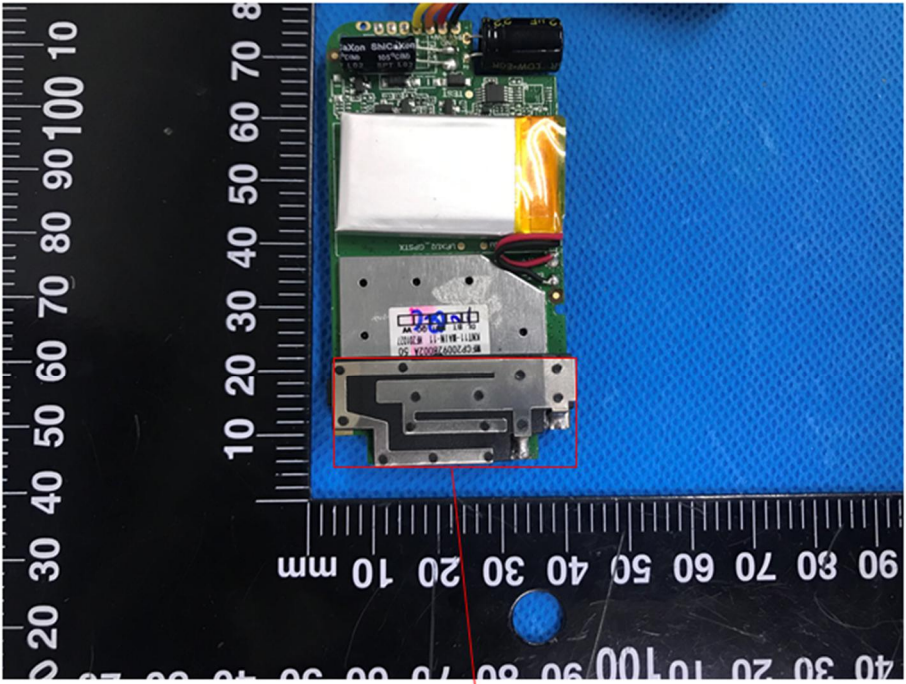

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	
<p>EUT Housing and Board View 2</p>	

<p style="text-align: center;">Solder Board-Component View 1</p>	 <p>A photograph showing a green printed circuit board (PCB) component with various electronic components. A large white rectangular component is mounted on the board. A metal bracket is attached to the bottom of the board. The component is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.</p>
<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph showing the reverse side of a green PCB component. A large white rectangular component with the label 'EZJXGBE0' is mounted on the board. Other components and traces are visible on the board. The component is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.</p>

<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A photograph of a green printed circuit board (PCB) component, model NT11-MB-V1.2, with a white rectangular component labeled 'EZJMG8E0' soldered to its surface. The board is placed on a blue textured background with a black ruler showing millimeter markings. The board features various components including a KHC VENT logo, a SIM card slot, and several integrated circuits.</p>
<p style="text-align: center;">Solder Board-Component View 4</p>	 <p>A photograph of the same green PCB component, model NT11-MB-V1.2, showing a different soldered component. A yellow and black component is soldered to the board. The board is placed on a blue textured background with a black ruler showing millimeter markings. The board features various components including a SIM card slot, a SIM card, and several integrated circuits.</p>

<p>Antenna View</p>	 <p>The image shows the internal components of a mobile phone with the back cover removed. A white rectangular antenna is mounted on the green PCB, labeled 'E2JYGBE0'. A red box highlights this antenna, with a red line pointing to a label 'GPS Ant' at the bottom right. A black ruler is visible on the left and bottom, showing measurements in millimeters.</p>
<p>Antenna View</p>	 <p>The image shows a close-up of the GSM antenna on the PCB. A red box highlights the antenna structure, with a red line pointing to a label 'GSM Ant.' at the bottom right. A black ruler is visible on the left and bottom, showing measurements in millimeters.</p>
