Wi-Fi Smart Light Bulb

Dear Customer:

Thank you so much for using our company's Wi-Fi Smart Light Bulb. The Wi-Fi Smart Light Bulb combines state-of-the-art Wi-Fi technology with the highest-quality materials and manufacturing processes, guided by our experience in product development. You can use your cellphone to easily control the Light Bulb. Please read this manual carefully for installation and usage instructions.

I. Product Features

1. Wi-Fi 2.4GHz 802.11 b/g/n wireless network.
2. Control the Smart Light Bulb anywhere you have an internet connection.
3. Full dimmable functionality and support for more than 16 million colors.
4. Supports scene memory function.
5. Supports up to 20 user-defined timers.

II. Product Parameter

- Light Mode: W + RGB
- Rated Power: 6W
- Color Temperature: W6500K+RGB
- Operating Voltage: AC 100-240V 50/60Hz
- Working Environment: Interior
- Working Temperature: -10~45 C

III. Product Installation

Screw the Wi-Fi Smart Light Bulb into the socket clockwise.

IV. APP Usage

Scan the QR code located on the manual to download the app. Launch the app, then click "Register". Enter your email address and set a login password (8-20 characters, must contain at least 1 digit, 1 letter, and 1 special symbol). A verification code will be sent to your email. Enter this verification code in the app to complete the registration process.

Refer to Simplified Operation Guide for more details on app usage.

V. Q&A

Q: What if I cannot onboard the Wi-Fi Smart Light Bulb?

A: a. The Light Bulb does not support 5GHz wireless networks. Ensure you are connecting to a 2.4GHz network.

b. Ensure that the Light Bulb and cell phone are connected to the same Wi-Fi network.

c. Ensure you have entered the correct password in quick configuration.

d. Reset the device and conduct onboarding again.

Q: How can I reset the Smart Light Bulb?

A: Ensure that the Light Bulb is connected to power. Toggle the Wi-Fi Smart Light Bulb off then on 4 times at a 1 second interval. When the Light Bulb's color returns to light purple, it means it has successfully reset.

VI. Notes

1. Do not use in a hot or humid environment.
2. Do not use near a flammable, explosive, or corrosive environment.
3. Do not touch the Light Bulb when powered on and operating.
4. Keep out of the reach of children during operation.
5. Ensure the Light Bulb is installed properly prior to its usage.
6. When using in-wall switches to control the Wi-Fi Smart Light Bulb, do not rapidly toggle the power.

VII. Declaration

We provide a 1-year warranty for this product given that it is used in accordance with this manual. The following situations do not apply to the warranty.

1. Any modifications or illegible writing present on the purchase receipt or product manual.
2. Malfunction caused by damage or misuse.
3. Malfunction caused by environmental factors such as lightning, flood, and fire.
4. The product was opened or disassembled.
5. Malfunction, deformation, breakage, or any other physical damage caused by external forces.

VIII. Place of Origin

FCC Statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
